Some Questions and Answers about God's Covenant and the Sacrament That Is a Seal of God's Covenant Nov 29 2019 Robert Rollock is best remembered today for the role he played in the development of Reformed covenant theology, a role defined especially by the uniquely mature treatment of a pre-fall covenant of works discovered in his thought. However, scholarship on Rollock's covenant thought has until now been based almost entirely on an early modern English translation of Rollock's *Tractatus de vocatione efficaci* (1597), and has overlooked discussion of the covenant of works found both in Rollock's 1596 *Questiones et responsiones aliquot de Foedere Dei, deque Sacramento quod foederis Dei sigillum est* and his 1593 *Romans commentary*. This volume offers the first complete English translation of Rollock's 1596 catechism as well as English translations of relevant sections from his *Romans commentary* that deal with the subject of God's covenants with man. Thus this volume stands to offer students of Reformed covenant theology a better understanding of Rollock's thought and the contribution he made to the evolution of Reformed theology, particularly on the matter of God's covenant with humankind before the fall.
