Territories of the Visual in Spain and Spanish America Apr 02 2020 While studying the theory and contemporary impact of 'embodied' viewing, this book celebrates the emergence and development of Visual Studies as a major subject of research and teaching in the field of Hispanic Studies within the UK over the last thirty years. By exploring current routes of investigation, as well as analysing future pathways for study in the field, seven highly distinguished Spanish and Latin American scholars examine their own entry into Visual Studies, and discuss the major trends and changes which occurred in the field as matters of the visual gradually became embedded in higher-education curricula and research trajectories. Each scholar also lays out a current research project, or interest, concerning Spain or Latin America within the visual field. The projects variously explore different media - including film, sculpture, photography, dance, and performance art - spread across a wide array of geographical locales, including Mexico, Cuba, mainland Spain, and the Canary Islands. Offering a map of current and future research in the field, this book provides the first history of visual studies within UK Hispanism. It will be of lasting value to a wide range of scholars and advanced students of Spanish and Latin American cultural, visual, and film studies. This book was originally published as a special issue of the Bulletin of Spanish Studies.

It's In the Music Jan 24 2022 Have you ever really listened to music? Sometimes it's not what we hear that can harm us, but what we can't. When a college science professor harnesses the ability to read and control human thoughts through radio transmissions, he's kidnapped and not heard from again. Meanwhile, a string of grotesque murders are popping up all over southeast Michigan, starting with 19-year-old Amanda Grace being methodically tortured and murdered in her apartment. No witnesses, no clues. Nick Stone teams up with laid-back Detective Jack Noble of the Detroit Police on the streets of Detroit and in the skies over Michigan to find the source of these murders, and their only clue: It's in the music.

4.6L & 5.4L Ford Engines Feb 10 2021 Since 1991, the popular and highly modifiable Ford 4.6-liter has become a modern-day V-8 phenomenon, powering everything from Ford Mustangs to hand-built hot rods and the 5.4-liter has powered trucks, SUVs, the Shelby GT500, and more. The wildly popular 4.6-liter has created an industry unto itself with a huge supply of aftermarket high-performance parts, machine services, and accessories. Its design delivers exceptional potential, flexibility, and reliability. The 4.6-liter can be built to produce 300 hp up to 2,000 hp, and in turn, it has become a favorite among rebuilders, racers, and high-performance enthusiasts. 4.6-/5.4-Liter Ford Engines: How to Rebuild expertly guides you through each step of rebuilding a 4.6-liter as well as a 5.4-liter engine, providing essential information and insightful detail. This volume delivers the complete nuts-and-bolts rebuild story, so the enthusiast can professionally rebuild an engine at home and achieve the desired performance goals. In addition, it contains a retrospective of the engine family, essential identification information, and component differences between engines made at Romeo and Windsor factories for identifying your engine and selecting the right parts. It also covers how to properly plan a 4.6-/5.4-liter build-up and choose the best equipment for your engine's particular application. As with all Workbench Series books, this book is packed with detailed photos and comprehensive captions, where you are guided step by step through the disassembly, machine work, assembly, start-up, break-in, and tuning procedures for all iterations of the 4.6-/5.4-liter engines, including 2-valve and 3-valve SOHC and the 4-valve DOHC versions. It also includes an easy-to-reference spec chart and suppliers guide so you find the right equipment for your particular build up.

Contracts in Context Feb 22 2022 This new casebook focuses on the transactional nature of contracts. In addition to describing the law of contracts and how the law is applied in litigation, Contracts in Context: From Transaction to Litigation explores why parties enter into contracts, how written contracts are customarily structured, and why and how parties use contract design and terms to achieve their goals. It explores how parties "contract around" default requirements of the law, in addition to satisfying mandatory aspects of the law, through contracts. The book describes the role of both the transactional lawyer and litigator in working with contracts. It presents much of the material in expository fashion rather than only or primarily through cases. It then challenges students to apply that law through transactional and litigation practice and simulation problems. Professors and students will benefit from:

Material presented not only on contract law, but also on contract design and terms, so that students understand how contracts and contract law support private ordering by parties. Many examples of contract language to demonstrate why and how parties customize contracts to further their goals. Discussion of the role of the transactional lawyer in working with contracts so that students can begin to develop important transactional skills and wrestle with some of the professional dilemmas transactional lawyers frequently face. Material presented through expository text to give students a more comprehensive and clearer view of what limits the law imposes on their private ordering through contracts and which requirements can be contracted around. A large set of problems, many of which involve tasks assigned to new transactional lawyers and litigators, to allow students to learn the material through active participation and critical thinking.

The River of Doubt Apr 14 2021 NATIONAL BESTSELLER • At once an incredible adventure narrative and a penetrating biographical portrait—the bestselling author of *Destiny of the Republic* brings us the true story of Theodore Roosevelt’s harrowing exploration of one of the most dangerous rivers on earth. The River of Doubt—it is a black, uncharted tributary of the Amazon that snakes through one of the most treacherous jungles in the world. Indians armed with poison-tipped arrows haunt its shadows; piranhas glide through its waters; boulder-strewn rapids turn the river into a roiling cauldron. After his humiliating election defeat in 1912, Roosevelt set his sights on the most punishing physical challenge he could find, the first descent of an unmapped, rapids-choked tributary of the Amazon. Together with his son Kermit and Brazil’s most famous explorer, Cândido Mariano da Silva Rondon, Roosevelt accomplished a feat so great that many at the time refused to believe it. In the process, he changed the map of the western hemisphere forever. Along the way, Roosevelt and his men faced an unbelievable series of hardships, losing their canoes and supplies to punishing whitewater rapids, and enduring starvation, Indian attack, disease, drowning, and a murder within their own ranks. Three men died, and Roosevelt was brought to the brink of suicide. The River of Doubt brings alive these extraordinary events in a powerful nonfiction narrative thriller that happens to feature one of the most famous Americans who ever lived. From the soaring beauty of the Amazon rain forest to the darkest night of Theodore Roosevelt’s life, here is Candice Millard’s dazzling debut.

Standing Up Against Injustice Dec 11 2020 Standing Up Against Injustice is both inspirational and instructive, emotional and riveting. A key element of this book is a focus on The Gambia's human rights situation and political landscape political turmoil; prison conditions and the plight of prisoners; the death penalty and executions; detention without trial, disappearances, torture, and extrajudicial killings; and, political repression, and corruption. These are all addressed from Dr. Amadou Scattered Jannah's personal experience and knowledge as a trained journalist, political scientist, former cabinet minister, entrepreneur, former political prisoner sentenced to a life-term, and a leading critic of the dictatorial regime of President Yahya Jammeh. Standing Up Against Injustice looks at Amadou's evolution from a seemingly shy pupil at Gunjur Primary School to a budding activist at Saint Augustine's High School; from a leading anti-apartheid activist at The University of Tennessee to a cabinet minister, and a political prisoner jailed for life. There is an extensive discussion of prison conditions and his incarceration at the Gambia's notorious Mile II Central Prisons where he saw prisoners being dragged away for execution in August 2012. The book concludes with a discussion of events leading to Dr. Jannah's release from prison through the intervention of the Rev. Jesse Jackson, and his expulsion to the United States in September 2012.

Consumption and Wealth in Luke's Travel Narrative Dec 31 2019 While several recent studies have suggested that the Gospel of Luke recommends generous almsgiving or a relatively benign sharing ethic that mimics existing redistributive measures in early Roman Palestine, this book argues that a much more subversive reading of the Gospel's wealth and possessions traditions is defensible.

Ford, Regaining Their Competitive Edge May 28 2022 This project contains a look into the manufacturing company of Ford Motor Company. Research was done about how the company runs business, both globally and domestically. In this report, the company's mission, goals, strategies, product and service portfolios, market share and profit performance, technology and employment information are outlined. Key successes and weakness failures are also discussed in detail. Information about Ford's use of computer systems and an information model for the company is also included. The information model displays Ford's Work System, showing which components of the Work Organization, Control System, Industrial Relations and Human Resources Practices Ford implements. The Business Organization, with Ford's Business Strategy and Enterprise Organization is also part of the model. At the end of the report, self-evaluations by team members and references can be found. Ford Motor Company is currently trying to increase its global market share in automobile sales while facing slumping market share numbers in the United States. This report examines the Ford company characteristics and how the company uses information systems in the business climate. To reduce costs and increase knowledge of a region Ford uses small ERP systems that are less expensive and faster to implement than the larger ERP systems. Failure to obtain a larger market share in foreign markets has hurt the company. The proper use of information systems by Ford will increase their ability to maintain a successful business in future years locally and globally.

The Sable Quill Jul 30 2022 The story of the Sable Quill revolves around a young, African American boy from Baltimore, MD named Malik Mills, who has dyslexia and struggles academically and socially with his confidence. Malik is a budding athlete whose basketball skills are overshadowed by his anger and violent tendencies. His parents, school administrators, neighbors, and friends are at a loss to help Malik. Even a child psychologist who tested Malik and diagnosed his mood disorder and dyslexia was at a loss to help him. Through some majestic maneuvering, Malik wins a palm reading at the Universoul Circus and with it an onyx, diamond, and gold pen. This pen unbeknownst to Malik is magical. It provides Malik with advantages that he did not previously have. It sets up a collage of assists and opportunities for Malik not just to change, but to flourish and thrive. With the help of the Sable Quill, his parents, his potential love interest and tutor, Tameka Thomas; and his own hard work, determination, and dedication, Malik changes his life, becomes a better person and a better student, and passes the legacy of the Sable Quill on to future posterity.

Rollover Accident Reconstruction Jul 18 2021 The last ten years have seen explosive growth in the technology available to the collision analyst, changing the way reconstruction is practiced in fundamental ways. The greatest technological advances for the crash reconstruction community have come in the realms of photogrammetry and digital media analysis. The widespread use of scanning technology has facilitated the implementation of powerful new tools to digitize forensic data, create 3D models and visualize and analyze crash vehicles and environments. The introduction of unmanned aerial systems and standardization of crash data recorders to the crash reconstruction community have enhanced the ability of a crash analyst to visualize and model the components of a crash reconstruction. Because of the technological changes occurring in the industry, many SAE papers have been written to address the validation and use of new tools for collision reconstruction. Collision Reconstruction Methodologies Volumes 1-12 bring together seminal SAE technical papers surrounding advancements in the crash reconstruction field. Topics featured in the series include: • Night Vision Study and Photogrammetry • Vehicle Event Data Recorders • Motorcycle, Heavy Vehicle, Bicycle and Pedestrian Accident Reconstruction The goal is to provide the latest technologies and methodologies being introduced into collision reconstruction - appealing to crash analysts, consultants and safety engineers alike.

Brandwashed Dec 23 2021 Marketing visionary Martin Lindstrom has been on the front line of the branding for over twenty years. In Brandwashed, he turns the spotlight on his own industry, drawing on all he has witnessed behind closed doors, exposing for the first time the full extent of the psychological tricks and traps that companies devise to win our hard-earned money. Lindstrom reveals eye-opening details such as how advertisers and marketers target children at an alarmingly young age (starting when they are still in the womb), what heterosexual men really think about when they see sexually provocative advertising,

how marketers and retailers stoke the flames of public panic and capitalize on paranoia over diseases, extreme weather events, and food contamination scares. It also presents the first ever evidence to prove how addicted we are to our smartphones, and how certain companies (like the maker of a very popular lip balm), purposely adjust their formulas in order to make their products chemically addictive, and much, much more. Brandwashed is a shocking insider's look at how today's global giants conspire to obscure the truth and manipulate our minds, all in service of persuading us to buy.
