Planning and Executing Credible Experiments Jul 26 2019 Covers experiment planning, execution, analysis, and reporting This single-source resource guides readers in planning and conducting credible experiments for engineering, science, industrial processes, agriculture, and business. The text takes experimenters all the way through conducting a high-impact experiment, from initial conception, through execution of the experiment, to a defensible final report. It prepares the reader to anticipate the choices faced during each stage. Filled with real-world examples from engineering science and industry, *Planning and Executing Credible Experiments: A Guidebook for Engineering, Science, Industrial Processes, Agriculture, and Business* offers chapters that challenge experimenters at each stage of planning and execution and emphasizes uncertainty analysis as a design tool in addition to its role for reporting results. Tested over decades at Stanford University and internationally, the text employs two powerful, free, open-source software tools: GOSSET to optimize experiment design, and R for statistical computing and graphics. A website accompanies the text, providing additional resources and software downloads. A comprehensive guide to experiment planning, execution, and analysis Leads from initial conception, through the experiment's launch, to final report Prepares the reader to anticipate the choices faced throughout an experiment Honors the motivating question Employs principles and techniques from Design of Experiments (DoE) Selects experiment designs to obtain the most information from fewer experimental runs Offers chapters that propose questions that an experimenter will need to ask and answer during each stage of planning and execution Demonstrates how uncertainty analysis guides and strengthens each stage Includes examples from real-life industrial experiments Accompanied by a website hosting open-source software *Planning and Executing Credible Experiments* is an excellent resource for graduates and senior undergraduates—as well as professionals—across a wide variety of engineering disciplines.

HOME SCHOOLING Sep 07 2020 Home Schooling: During COVID-19 and Beyond By: Deborah Nichols Poulos Homeschooling has been a challenge for parents and grandparents who have worked so well to keep their children engaged in learning this pandemic year. Debbie speaks to respect and humor in this second book, which are so important for kids and parent/teachers. This book will be a good organizational tool for future homeschoolers and can be adapted to all teaching levels. -- Carole Plack, retired Administrator, Yolo County Office of Education; parent from Debbie Poulos' 6th grade class, and grandparent _____ Ms. Nichols Poulos was my son's 5th grade teacher and, although a bright child, he had certain behavior issues which created challenges in the classroom. Debbie was the only teacher my son had throughout his schooling that I felt really understood him. She knew how to work with him to help him achieve his best potential; to feel cared about and accepted at school. Her skills, knowledge and abilities, along with her compassion for her students, made her an outstanding teacher. She was unforgettable to her students and their parents alike. Home Schooling: During COVID-19 and Beyond is a treasure trove of information parents (and grandparents!) can use to achieve the same success with their children. She has pulled from her first book, *The Conscious Teacher*, written primarily for

teachers, what she thinks will be of the most help to parents. She has added some new information as well. The book's sections on behavior standards and working with gifted students are especially helpful as a parent and now as I work with my grandkids as they school at home. The advice on how to teach the various subjects of reading, writing, math, social studies and computer skills is invaluable. I have greater confidence to help the kids learn at home, regardless of whether they are primarily learning remotely or in a classroom; this book gives you the tools to enrich their learning. -- Sue Woods, Mediator/Facilitator; Consensus and Collaboration Program, CSUS; BA (1975) Social Welfare, San Diego State University _____ I'm a grandparent and not homeschooling on a regular basis, but I am often helping grandkids with schoolwork. So Home Schooling: During COVID-19 and Beyond is helpful even for having a successful single lesson. The parts about mutual respect and working WITH your student are very useful. The book is well organized, easy to understand and is full of specific routines for productive and rewarding homeschooling for teacher and student. Debbie taught my daughter, Vinci, in fourth grade and it was a wonderful year for her. She gained the necessary confidence to succeed academically in Debbie's class that propelled her lively mind and scholastic achievements to this day. -- Dawn Daro, mother of Vinci Daro, B.A. and secondary teaching credential UC Berkeley, taught Junior High Richmond Unified School District _____ For parents new to teaching, as for anybody else, simple tools can help a lot. Deborah Nichols Poulos' Home Schooling: During COVID-19 and Beyond supplies them in a well-organized format. For math, she gives you handy grids for adding, subtracting, multiplying, and dividing, plus simple tricks that aid intuition, such as the use of manipulative objects. To build up reading and spelling, she offers bonus devices for rewarding new learning without any mark-downs for errors. For writing, try her tips on building sentences and paragraphs. Positive feedback, no tears. Even without covid, this book would have been timely. -- Peter and Lin Lindert, parents of Nick Lindert, one of Deborah's students You can contact Ms. Nichols Poulos at dnpoulos@urcad.org

The Wasp Factory Jul 06 2020 The polarizing literary debut by Scottish author Ian Banks, *The Wasp Factory* is the bizarre, imaginative, disturbing, and darkly comic look into the mind of a child psychopath. Meet Frank Cauldhame. Just sixteen, and unconventional to say the least: Two years after I killed Blyth I murdered my young brother Paul, for quite different and more fundamental reasons than I'd disposed of Blyth, and then a year after that I did for my young cousin Esmerelda, more or less on a whim. That's my score to date. Three. I haven't killed anybody for years, and don't intend to ever again. It was just a stage I was going through.
