Doing Youth Participatory Action Research Aug 20 2021 Doing Youth Participatory Action Research offers an unprecedented, in-depth exploration of the pragmatics and possibilities of youth-driven research. Drawing upon multiple years of experience engaging youth in rigorous, critical inquiry about the conditions impacting their lives, the authors examine how YPAR encourages the educational community to re-imagine the capabilities of young people and the purposes of teaching, learning, and research itself. Much more than a "how-to" guide for those interested in creating their own YPAR projects, this book draws upon the voices of students and educators, as well as the multiple historical traditions of critical research, to describe how youth inquiry transforms each step of the traditional research process. From identifying research questions to collecting data and disseminating findings, each chapter details how YPAR revolutionizes traditional conceptions of who produces knowledge, how it is produced, and for what purposes. The book weaves together research, policy, and practice to offer YPAR as a practice with the power to challenge entrenched social and educational inequalities, empower critically aware youth, and revolutionize pedagogy in classrooms and communities. For researchers, educators, community members, and youth who want to connect, question, and transform the world collectively, Doing Youth Participatory Action Research is a rich source of both pragmatic methodological guidance and inspiration.

Teaching Kids to Be Kind Oct 10 2020 A simple and sweet parenting book with 365 tips—a new one to try every day! As a parent, you want the best for your child, and one of your greatest hopes is that your child will grow up to be a good person. So, what makes a good person? Generally, we think about good people as being kind: those who are compassionate, empathetic, generous. However, it seems that, in our fast-paced, individual-driven society, kindness is fading and the pressure on parents to raise socially conscious, empathetic, and caring children can seem overwhelming at times. In Teaching Kids to Be Kind, Rachel Tomlinson draws from her professional experiences to provide 365 inspiring strategies to help children and families practice kindness every day of the year. Daily tips include: Taking your child shopping around the holidays to select a new toy to donate to another little boy or girl their age. Leaving little notes in their lunch box or school bag for them to find. This models unconditional love and consideration for others. Baking a cake together to teach patience and teamwork and build on their ability to delay gratification. An essential tool for parents, Teaching Kids to Be Kind will help children develop empathy, regulate their emotions, and improve their general well-being as well as support families in strengthening their overall relationships.

Teaching Kids Authentic Worship Feb 11 2021 Many children, as adoring fans, can rattle off all the stats and facts and details about their favorite singer or sports star. Wouldn't it be great if they knew that much about God and were as excited about him? In Teaching Kids Authentic Worship, Kathleen Chapman gives an eye-opening lesson on how worship can spark that kind of enthusiasm. She begins with what it means to truly worship-to focus on God alone. At its core, she says, worship is our recognition of the greatness of God. It is a kind of glue that will effectively lead children into a greater, more permanent love relationship with Jesus. With a contagious enthusiasm of her own, Chapman moves from the "what" of worship to the "how." She includes fifty-two worship moments that help children-and adults-focus exclusively on God and learn about him. These creative moments take the form of singing, hand movements, dance, crafts, games, writing, drama, and more. Teaching Kids Authentic Worship is a necessary resource for every Sunday school teacher, children's church leader, and parent who wants to guide children in making God their greatest hero and lifelong friend.

In Teaching Kids to Think, Dr. Darlene Sweetland and Dr. Ron Stolberg offer insight into the social, emotional, and neurological challenges unique to this generation. They identify the five parent traps that cause adults to unknowingly increase their children's need for instant gratification, and offer practical tips and easy-to-implement solutions to address topics relevant to children of all ages. A must-read for parents and educators, Teaching Kids to Think will help you understand where this sense of entitlement comes from—and how to turn it around in order to raise children who are confident, independent, and thoughtful.
