Productivity, Education and Training Apr 27 2022 The first comprehensive account of ten years of research into the problem of the training, employment and productivity of low-skilled personnel in advanced economies.

A Centenary History May 17 2021

The Costs of Further Education Dec 12 2020 The Costs of Further Education: A British Analysis offers a critique of the organization of further education in Britain, especially education provided in technical colleges. Emphasis is placed on how the resources allocated to education should be divided among various alternatives. This volume consists of nine chapters organized into three sections. After an overview of further education in Britain, the reader is introduced to the financial costs of providing education courses. The use of information on average costs to estimate marginal financial costs is discussed, along with the imputed costs of student time and the factors that affect the distribution of total cost between various groups. The chapters that follow focus on benefits and their relationship to costs for various courses, along with the principle for project selection. The method of obtaining the cross-section age-earning profiles is described. The concluding chapter includes a summary statement of the present situation and a suggestion for reform. This book is a valuable resource for educators, administrators, and policy planners involved or are interested in British further education.

Henry Dyer Oct 22 2021 This volume is an updated and expanded version of the author's original biography on Henry Dyer, *Dyer no Nippon* (1989). The study makes an important new contribution to o-yatoi ('hired foreigner') studies of the Meiji period, particularly in the field of education, and helps illuminate existing perceptions regarding the nature of Japan's route to modernization.

The Life and Times of A D Blumlein Aug 08 2020 Despite his accidental death in June 1942 at the age of 38, Alan Dower Blumlein was unquestionably one of the century's most creative engineers and filed some 140 patents. He was the driving force and inspiration behind a vast number of fundamental innovations in the fields of radar, electronics and sound recording, amongst which he held perhaps the landmark patent enabling stereo sound. Surprisingly, until 1999 there had been no biographies of this remarkable man. The IEE is proud to rectify this by publication of this scholarly treatment of Blumlein's life, which includes a foreword by his eldest son.

Mechanical Engineering Level 2 NVQ Oct 02 2022 This practical and interactive engineering book is designed so that students can complete the blanks and keep the book as evidence for assessment purposes, and as an essential reference guide for their subsequent employment.
