Yeah, reviewing a ebook **Fundamental Trial Advocacy 2d American Casebook Series** could be credited with your near friends listings. This is just one of the solutions for you to be successful. As understood, expertise does not recommend that you have wonderful points.

Comprehending as capably as pact even more than other will meet the expense of each success. next-door to, the statement as competently as sharpness of this Fundamental Trial Advocacy 2d American Casebook Series can be taken as capably as picked to act.

[Cases and Materials on Statutory Interpretation](#) Jul 31 2022 Drawn from and updating the materials in the authors' landmark casebook on Legislation, this new casebook is a comprehensive and highly teachable introduction to Statutory Interpretation. Reflecting new scholarship as well as recent federal and state cases, the editors have included and updated the many teachable statutory interpretation cases found in the longer legislation casebook. This shorter casebook is perfect for upper-level legislation courses that focus on statutory interpretation and for first-year regulatory state courses that spend a significant time on statutory interpretation.

Contemporary Property Jan 31 2020 This title is a part of our CasebookPlus(tm) offering as ISBN 9781634595421. Learn more at CasebookPlus.com. Designed for use in a four, five or six unit Property course, this casebook applies traditional property concepts in a distinctly modern context. The book begins with fundamental Property principles and concepts, followed by personal property with an introduction to intellectual property. Subsequent chapters cover present and future interests, concurrent estates, landlord and tenant law, real estate transactions, easements, covenants, and public land use regulation (including zoning, eminent domain and regulatory takings, and constitutional challenges based on due process, equal protection, freedom of speech and freedom of religion). The book is accompanied by a detailed Teacher's Manual.

[Lawyering](#) Feb 23 2022 This book explains fundamental lawyering skills, values, and relationships for students in skills, clinical, and related courses. The chapters thoroughly explore interviewing, counseling, negotiating, the business of lawyering, transactional work, investigations, pleadings, discovery, depositions, mediation, and dispute resolution planning. These materials prepare students for their

professional lives, as a civil practitioner, transactional lawyer, litigator, in house counsel, or businessperson. The unique coverage enables students to become highly competent, responsible, and ethical lawyers. This Third Edition covers the theories, strategies, and tactics involved with effective client representation and provides examples and illustrations of successful lawyers engaged in the practice of law. New materials include the impact of social and legal network communications, innovative approaches to modern practice, and the effective use of electronically stored information and data. An original learning device Think Twice provides expansive commentary and insights into law practice.

Cases and Materials on American Property Law Jun 29 2022 This casebook provides a traditional approach to property law. The opening chapter, which focuses on the law of personal property, includes cases designed to hone a student's skill in close case analysis, while later chapters, involving real property, are geared toward helping students understand the nuances of property law's public and private aspects.

The book in its entirety introduces students to a broad spectrum of material traditionally covered in a first-year property course and constructs a foundation for upper-level courses like trusts and estates, real estate finance, mortgages, land-use planning and zoning, secured transactions, and others. The 7th edition features new cases in almost every chapter and expanded discussions involving the financing of property transactions, servitudes, and Fifth Amendment takings. It also includes refreshed charts and tables. The notes and comments have been appropriately updated to include recent trends, cases, and novel issues.

The Latin American Casebook Oct 10 2020 Traditionally relegated because of political pressure and public expectations, courts in Latin America are increasingly asserting a stronger role in public and political discussions. This casebook takes account of this phenomenon, by offering a rigorous and up-to-date discussion of constitutional adjudication in Latin America in recent decades. Bringing to the forefront the development of constitutional law by Latin American courts in various subject matters, the volume aims to highlight a host of creative arguments and solutions that judges in the region have offered. The authors review and discuss innovative case law in light of the countries' social, political and legal context. Each chapter is devoted to a discussion of a particular area of judicial review, from freedom of expression to social and economic rights, from the internalization of human rights law to judicial checks on the economy, from gender and reproductive rights to transitional justice. The book thus provides a very useful tool to scholars, students and litigants alike.

Energy Law and Policy Nov 22 2021 Receive complimentary lifetime digital access to the eBook with new print purchase. This book offers an introduction to energy law and policy both for students who seek to practice in the field and for those interested in better understanding this fascinating, critical area of law. It introduces the key federal, state, and local government actors that play differing roles in energy controversies and unpacks the multi-jurisdictional approach to energy regulation pervasive in the United States. The book explores the laws and policies governing the extraction, use, and disposal of renewable and non-renewable energy resources and provides in-depth coverage of U.S. regulation of the two major energy systems--electricity and transportation. In doing so, this book breaks away from the traditional approach of looking at energy resources one at a time. Instead, it provides a more holistic view of the field, emphasizing the major themes that run through energy law--regulation of market power, federalism tensions, and the global transition toward cleaner energy. Energy Law and Policy contains cases, sample statutes and regulations, and pertinent excerpts from energy law and policy experts. These policy-oriented, often empirical materials offer the necessary building blocks for a public law course, particularly one that covers a rapidly transitioning field. The book is organized into three parts that introduce students to the fundamental aspects of the energy sector, energy law, and the most pressing energy topics of the 21st century. The second edition builds on the first edition in a variety of ways: Enhanced coverage of legal and policy issues surrounding energy extraction on federal public lands, including coal, oil, natural gas, wind, and solar; Updated coverage of state policy changes in the areas of rooftop solar, net metering, and renewable portfolio standards; In-depth coverage of new energy-related executive orders, regulations, and policy shifts since the start of the Trump Administration; Greater discussion of energy storage technologies, electric vehicles, electric grid modernization, and cyber-security; Additional coverage of nuclear energy issues, including state subsidies for existing nuclear plants, financial concerns over investments in new nuclear plants, and facility permitting; Excerpts of new Supreme Court and federal lower court decisions on contemporary electricity policy issues, including demand response, capacity

procurements, and electric transmission line planning; New developments in state regulation of hydraulic fracturing technologies; and Coverage of recent disputes over controversial energy transportation projects such as oil pipelines, natural gas pipelines, and liquefied natural gas export facilities.

Introduction to American Constitutional Law: Structure and Rights Sep 28 2019 Unlike most constitutional law books, this book does not assume that the students have any particular knowledge of American history, government, or law, so it begins with a rich introductory chapter to provide students with a necessary foundation for the rest of the material. Thereafter, it supplements the familiar cases with historical context and pictures and biographies of current and famous justices adjacent to their opinions. It makes the traditional canon accessible and enjoyable to the current generation. Easily covered over two semesters, the book manages through careful case selection to avoid drastic editing of all but the longest cases.

Cases and Materials on Contracts Aug 20 2021 Making and Doing Deals is a book that your students will learn from long after they graduate. It is also a book that should be fun for you to teach from. It's a book that students will enjoy, and, therefore, a book that they will read. Since the First Edition, students have been reading Making and Doing Deals because the cases, problems, and text not only help them learn what they need to know as first-year law students, but also address the real-world problems and situations they will encounter after their final exam.

Jurisprudence, Text and Readings on the Philosophy of Law May 17 2021 This book is designed for use in courses in law schools and university departments of philosophy. It can serve as a text for basic and advanced courses and seminars. Readings include excerpts of classic works of Aristotle, Aquinas, Locke, Hobbes, Kant, Bentham, and Austin. Provided also are excerpts from standard works of twentieth century philosophers. The book explores current legal discourse with readings on topics such as sociobiology, Islamic law, the legal process school, legal feminism, critical legal studies, intersectionality and gender identity theories, law and economics, and new private law theories. It reprints leading cases on natural rights/human rights and readings from online blogs, op-ed essays, news stories and internet publications, as well as drawing on literary treatment of topics relevant to legal philosophy.

Criminal Law Mar 27 2022 This text, the only criminal law casebook authored by two progressive female law professors of color, provides the reader with both critical race and critical feminist theory perspectives on criminal law while following a traditional format. All of the usual subject areas are covered, but the book is unique in highlighting the cultural context of substantive criminal law. The book seamlessly integrates issues of race, gender, class, and sexual orientation so the teacher who wishes to address such issues does not have to assign supplemental reading assignments in order to do so. The book is also very student-friendly, providing a brief doctrinal overview of the subject matter at the beginning of each chapter. The book does away with the tradition of long lists of notes and questions following the cases, a trademark feature of many older casebooks, putting this material in the Teachers Manual for the teacher to use at his or her discretion. The forthcoming third edition is fresh and innovative, referencing several ripped from the headlines controversies, including the shooting of Trayvon Martin by George Zimmerman and Florida's stand your ground law, the arrest of African American Harvard professor Henry Louis Gates, Jr. for disorderly conduct, the shooting of Larry King, a gender nonconforming teenager, by classmate Brandon McInerney and the gay panic defense, and the repeal of North Carolina's Racial Justice Act.

Problems in Legal Ethics May 05 2020 The new Eleventh Edition of the popular Problems in Legal Ethics reflects extensive updating to integrate new cases and current issues, while keeping its practical, problem-centered focus. The new edition contains more than a dozen new Discussion Problems and nearly a dozen new cases, and integrates readings on current issues. The chapter addressing bias has been extensively reworked to include both recent cases and readings that address the concept of unconscious bias. Approachable, concise, and up-to-date, this practical new edition ensures that students understand the potential ethical pitfalls encountered in the practice of law.

Privacy Law and Society Apr 27 2022 The Third Edition of Privacy Law and Society is the most comprehensive casebook on privacy law ever produced. It traces the development of modern privacy law, from the early tort cases to present day disputes over drone surveillance and facial recognition. The text examines the philosophical roots of privacy claims and the significant court cases and statutes that have

emerged. The text provides detailed commentary on leading cases and insight into emerging issues. The text includes new material on developments in the European Union, decisions grounded in fundamental rights jurisprudence, and exposes readers to current debates over cloud computing, online profiling, and the role of the Federal Trade Commission. *Privacy Law and Society* is the leading and most current text in the privacy field.

Cases and Materials on Marijuana Law Jun 25 2019 This pioneering casebook presents a thorough exploration of the rapidly evolving and complex area of marijuana law. Current through the end of 2018, this casebook explains marijuana law from all perspectives, including federal, state, local, and international law. Also treated in depth are the fascinating civil, criminal and constitutional issues emerging from current marijuana law, as well as important issues of federalism, business and tax law, and professional responsibility. Significant and recent cases are presented in edited and readable form, as well as the legislation, regulations, and public policy that govern marijuana cultivation, consumption, and supply. Notes, questions, and problems in each chapter enhance understanding of the materials.

Law in the United States May 29 2022 The second edition of this casebook introduces foreign students, most trained in code-based law, to the unique American mix of common law, statutory materials, and constitutional law. Strongly emphasizing American legal methods and the influence of American history and culture on law in the United States, the book provides a rich array of teaching resources covering both public and private law. Following introductory chapters that cover the relations between important sources of law (common law, statutes, and constitutional law, including the hierarchy of various forms of law), succeeding chapters cover the major topics in constitutional law, civil procedure and jurisdiction, and private law (contracts, torts, and corporations). The book is especially appropriate for schools attempting to meet the new Master of Laws teaching requirements of the N.Y. Bar, and its emphasis on legal methods also makes it suitable for assignment in college-level courses.

Privacy Law Jul 07 2020

Health Law Nov 10 2020 This abridged edition uses the organization and methods that health law teachers and students have found so helpful over the last seven editions of the casebook. This book is designed specifically for survey courses in health law that aim at introducing students to the full range of health law issues in a single survey course. As with the full casebook, this abridged version includes chapters covering health care quality, access, organization, finance, and bioethics, but some sections and chapters of the full casebook are deleted and note material is less comprehensive. This abridged version is well suited for health law courses taught in law schools with a single health law course and for courses taught in health administration, public health, and medical and other health professions programs.

Labor Law in the Contemporary Workplace Mar 15 2021

The Legal Profession Sep 20 2021 Unlike most Professional Responsibility books on the market, this book integrates ethical and legal perspectives with the best available empirical literature on the legal profession. It covers all of the basic ethics topics covered in the standard professional responsibility course, but it blends the coverage of doctrine with an in-depth survey of the legal profession. It links legal ethics with materials drawn from other disciplines, especially sociology, economics, and psychology, to help students appreciate actual practice realities and the implications for daily experience. It includes some of the classic cases and materials on professional responsibility and also features up-to-date problems and materials on current issues. This is the only PR book on the market that provides sufficient explanation of basic legal concepts and the operation of the legal system to make it suitable for first-year students. It includes an extensive teachers' manual with sample syllabi, detailed advice about how to teach the materials, written instructions for role-play exercises, and sample exam questions.

Cases and Materials on Criminal Law Sep 01 2022 Premised on the belief that criminal law is an exciting subject to learn and teach, this popular casebook provides a balanced and creative overview of classic and modern criminal law cases and issues while covering both common law foundations and modern statutory reform, including the Model Penal Code. The casebook invites classroom consideration of many controversies in the field (e.g., rape law, race-based jury nullification, Internet crime, and anti-stalking legislation) and defenses (e.g., battered women's self-defense). Using imaginative examples from literature and music to illustrate criminal law issues (e.g., examining insanity with Edgar Allan Poe's *The Tell-Tale Heart* and homicide with Willa Cather's *O Pioneers!*), the casebook allows law students to

confront some of the Big Questions with which philosophers, theologians, scientists, poets, and lawyers have grappled for centuries.

Products Liability Jan 01 2020 This edition of the casebook remains sufficiently flexible to meet widely varying needs. It is appropriate to use in a two or a three hour course. The structure of the book permits omission of entire chapters or portions of chapters without disrupting the flow of the course. The book is arranged so that the core of products liability law is presented in the first six chapters, but the materials may also be taught out of order. Topics include misrepresentation and warranty law, defects and reasonableness, cause-in-fact, proof, proximate cause and damages. The remaining chapters cover core topics in products liability litigation. After a brief introduction, chapters 1 and 2 address the application of misrepresentation and warranty law to products cases. These theories remain viable in most jurisdictions and in a few jurisdictions that never adopted the Restatement (Second) of Torts Section 402A, they remain at the core of modern products liability law. Chapters 3 and 4 address the development of modern products liability law and its defining characteristic: its focus on the concept of "defect" rather than the concept of reasonableness. Chapter 5 addresses cause-in-fact. Here as elsewhere the book does not attempt to reprise the coverage of this topic in the first year tort course, but rather focuses on the special cause-in-fact issues that typically emerge in product liability cases. Likewise, chapters 6, 7 and 9 focus on the proof, proximate cause, and damages questions that most frequently arise in the products liability arena. The remaining chapters in the book cover the remaining core topics in products liability litigation: a) the effect of statutes and regulations b) apportionment of liability between plaintiff and defendant and among defendants in multi-party litigation c) the effect of statutes of limitations and repose d) parties and transactions that are covered and are not covered by products liability law e) complex litigation, including multidistrict litigation, class actions, and other forms of aggregate claim resolution.

International Law Feb 11 2021 Janis, Noyes, and Sadat on International Law presents this complex subject in an authoritative and well-written casebook. The book introduces the history and nature of international law and its sources--treaties, custom, general principles, jus cogens, and equity. It explains how international law is applied in U.S. courts and in international arbitration and adjudication. The book addresses many of the key settings in which international law plays a critical role: international human rights, the recognition and succession of states and governments, international and non-governmental organizations, war and peace, the law of the sea, and inter-state judicial relations. The book's materials, largely domestic and international judicial decisions, are both sophisticated and teachable, the perfect introductory casebook for any U.S. law school.

American Indian Law Dec 24 2021 This casebook provides an introduction to the legal relationships between American Indian tribes, their citizens, the federal government, individual states, and others. The foundational cases are incorporated with statutory text, background material, hypothetical questions, and discussion problems to structure the classroom experience and enhance student engagement. History is critical to understanding American Indian law as it now exists and it is covered and explained to highlight how it shapes current law. The fourth edition includes expanded materials on law and order within Indian country, the Indian Child Welfare Act, water rights, Hawaii, and Alaska as well as recent Executive Branch actions that increase tribal authority. The authors update the book with a supplement after the end of the Supreme Court's term every summer.

International Law Jan 25 2022 Updated with an emphasis on current issues, this classic casebook emphasizes developments in international law, with expertly edited cases and problems for class discussion. Cases and Materials on International Law offers a treatment of the subject for introductory and advanced classes and detailed readings and reference materials for those who wish to pursue topics in depth. The fourth edition enriches every chapter with new information on institutions contributing to the sources and enforcement of international law, including the World Trade Organization, the International Criminal Tribunals for Yugoslavia and Rwanda, the prospective International Criminal Court, and organizations in the fields of law of the sea and arms control. International criminal law now has a chapter of its own, and the casebook gives expanded treatment to human rights, environmental law, and economic law.

Immigration and Citizenship Jul 19 2021 With a theme of membership and belonging reflected throughout, *Immigration and Citizenship: Process and Policy* presents exceptionally broad coverage of

immigration and citizenship and their unalienable rights. The book discusses constitutional protections, deportation, and judicial review and removal procedures. The authors define immigration and citizenship to include not only the traditional questions of who is admitted and who is allowed to stay in the United States, but also the complex areas of discrimination between citizens and non-citizens, unauthorized migration, federalism, and the close interaction of constitutional law with statutes and regulations. The fifth edition integrates important developments, including many changes to the immigration statutes as part of the Patriot Act; anti-terrorism enforcement; and splitting up the Immigration and Naturalization Service into various parts of the new Department of Homeland Security and other federal agencies. Other significant changes include deleting the chapter on the concept of entry, folding the deportation chapter's discussion of relief into a general chapter on the grounds of deportability, and creating a new chapter on undocumented immigration.

Employment Discrimination Law, Cases and Materials on Equality in the Workplace Nov 30 2019
Description Coming Soon!

Cases and Materials on Land Use Sep 08 2020 Description Coming Soon!

Rotunda's Modern Constitutional Law Apr 15 2021 Since the first publication of Modern Constitutional Law forty years ago, it has continued to be one of the best sellers in a very competitive market. Over the years, many law professors have adopted this user-friendly casebook - which is no surprise, given the rave reviews the book has enjoyed. For example, Professor Thomas E. Baker stated that he has "been so loyal to the Rotunda brand name over the years," because it "remarkabl[y]" manages "to include all the important cases yet preserves a fuller set of opinions to guarantee 'thoughtful classroom discussion'." This Twelfth Edition incorporates many changes in Constitutional law, including limiting federal courts' power to review partisan state gerrymanders, limits on government-compelled speech, refusing to give the President immunity from subpoenas by prosecutors and Congress for the President's private papers, freeing churches from burdens on free exercise of religion, striking down abortion restrictions, and refining powers under the commerce clause.

Business Planning Aug 08 2020 The Fifth Edition of this legal guide to business planning builds on foundational business discussions by highlighting and explaining the planning implications of recent, unprecedented pro-business changes that have caused the small business optimism index to skyrocket to record-breaking levels. These changes include those arising from the Tax Cuts and Jobs Act of 2017, The Protecting Americans from Tax Hikes Act of 2015, recent SEC rulings and more. As explained in this new edition, these changes significantly impact many core planning challenges, including: choice-of-entity planning capital-raising challenges entity conversions buying and selling a business co-owner planning business transitions to the next-generation executive compensation business life insurance planning wealth diversification strategies and more.

Cases and Materials on the Law of Torts Mar 03 2020 This sixth edition, continuing the use of minimally edited cases, serves as a vehicle for teaching first-year students the essential techniques of case analysis and legal method. This edition has been substantially shortened so as to meet the needs of instructors who teach a three or four hour introductory tort course. Throughout, the book is modified to include developments in tort law since the fifth edition was published in 2012. For example, the intentional tort chapter recognizes and discusses the Restatement (Third) of Torts: Intentional Torts. The chapters on negligence and causation recognize and discuss cases relying on and referencing the Restatement (Third) of Torts: Liability for Physical & Emotional Harm. The chapter on duty reflects the framework by which courts think about duty. It brings together in one place all the areas of tort law that apply special duty rules. The Causation Chapter adds material on causation in toxic tort cases and the admissibility of expert witnesses after Daubert. The materials on products liability capture recent developments in that area. The Insurance Chapter incorporates the new restatement on insurance law. The chapter on tort reform updates the empirical research on the operation of the tort system and the effects of tort reform.

Modern Criminal Law Jun 05 2020

White Collar Crime Dec 12 2020 The book is designed to promote student appreciation of the interaction of legal doctrines as they are applied in the white collar crime field. The material exposes students to substantive criminal law, criminal procedure, administrative procedure, corporate law, evidence, civil procedure, sentencing law, and highly specialized regulatory law. The book also allows students to

appreciate the influence of administrative policies and the influence of the basic "culture" of white collar criminal practice. In addition to traditional materials in the casebook, a companion statutory and documentary supplement provides rich primary source material.

Cases and Materials on Arbitration Law and Practice Apr 03 2020 The Seventh Edition of this popular casebook has fully integrated the Supreme Court's latest decisions--Stolt-Nielsen, Rent-A-Center, AT&T Mobility, Granite Rock, Sutter, and the ground-breaking ruling in BG Group--into the coverage. The latest editions of the casebook boast a new organization that is more cohesive and better defines the issues of central importance to the U.S. and other laws of arbitration. The volume also includes a revised chapter ten that contains materials on drafting arbitration agreements. It can serve as a basis for a class workshop on drafting such agreements. The book's content and approach reflect a continuing thorough assessment of the field. The teaching materials are up-to-date and comprehensively assess the landmark work of the Supreme Court in the area.

Cases and Materials on Juvenile Justice Administration Oct 02 2022

Contemporary Family Law Oct 22 2021 This popular family law casebook engages students with the significant changes to the American family and the corresponding evolution of family law doctrine and policy. In the fifth edition, all 17 chapters are fully updated to reflect the latest family law developments, including ones that have occurred since *Obergefell v. Hodges* (2015). The book emphasizes that contemporary families take a variety of forms, including marital and nonmarital adult relationships, and that constitutional considerations play an increasingly important role in family law. The fifth edition preserves and builds on the approach of the earlier editions: presenting core substantive family law doctrine while also exploring ongoing and emerging policy debates and discussing the importance of cross-disciplinary collaborations with experts in fields such as psychology and accounting. A limited number of new cases replace older ones in most chapters, and the introductions to and notes and questions following each lead case, statute, or article have been thoroughly updated. In addition, problems for discussion in each chapter--including new and updated problems for this edition--enable students to apply doctrine in real-life settings that lawyers face. *Contemporary Family Law* also introduces the myriad issues central to family law practice and to a lawyer's ethical and professional responsibilities. The book includes material on shifting paradigms in family law practice and the roles of family lawyers, and devotes separate chapters to professional ethics, alternative dispute resolution, and private ordering. The book addresses jurisdictional issues in one integrated chapter. In addition to providing a grounding in the historical and contemporary regulation of marriage, the book includes material throughout on the legal treatment of nonmarital couples and their children. The book also explores the diverse pathways to legal parentage and their impact on parent-child and co-parent relationships. Moreover, because child custody arrangements lead to some of the most acrimonious family disputes, this casebook devotes two chapters to custody: the first treats the initial custody decision, and the second explores continuing litigation concerning visitation, custody, and key childrearing decisions after the initial disposition, including disputes involving third parties such as cohabitants and grandparents. Both custody chapters include disputes involving nonmarital children. The fifth edition includes new and expanded material throughout, such as: Issues arising after *Obergefell v. Hodges* (2015), the Supreme Court's decision on the fundamental right of same-sex couples to marry and to have every state recognize their marriage, and the decision's ramifications throughout family law, including rules for entering marriage, parentage, domestic partnerships, civil unions, and other legal statuses. Changes in marriage regulation, including state bigamy and legal challenges to them and "child marriage," including legislative efforts to raise the minimum age of marriage, with examples of new legislation. Developments involving nonmarital couples, including *Blumenthal v. Brewer*'s affirmation of Illinois's policy against allowing economic remedies for nonmarital couples. Changes in parentage law, including surrogacy legislation, the latest revision of the Uniform Parentage Act (2017), and the new Uniform Nonparent Custody and Visitation Act adopted in 2018. Extensive coverage of debt and family finances, new material drawn from numerous studies on the current economic climate (replacing the excerpt from Elizabeth Warren on bankruptcy), as well as new material on how the 2017 changes to federal tax law affect families; Discussion of *Whole Woman's Health v. Hellerstedt* (S. Ct. 2016) and later developments in the courts and in state legislatures regulating access to abortion; New lead cases on moral fitness in custody adjudication and domestic violence in

custody decisions with substantially revised notes; a new lead case on relocation by a custodial parent--here a male nurse--reflecting changes in the law in many jurisdictions; expanded notes on parental decisions involving transgender youth; and a new discussion of disputes over "custody" of animal companions, commonly known as pets. A full chapter containing updated materials about domestic violence and its harmful effects on marital and nonmarital households, and about intrafamily tort actions and family-related tort actions brought against family members by third persons. A full chapter on adoption, including the latest trends and practices in transracial adoption, international adoption by American parents, and adoption by same-sex couples. A fully updated chapter on the child support obligations of marital and non-marital parents.

Cases and Materials on Trade Secret Law Oct 29 2019 This is the second edition of the first casebook in the United States devoted exclusively to trade secret law. As with the successful first edition, it is challenging yet user-friendly to students in order to facilitate their reading and understanding of the material. It is designed to be used by law students (and business students) with no prior background in intellectual property law. Due to the breadth of the subject matter, professors who teach trade secret law need not be intellectual property experts, but can specialize in a variety of fields, including employment law, torts, and unfair competition. The casebook also provides the context to re-teach and reinforce many of the basic concepts of law that students learned as 1L's, including tort law, contract law, property law, civil procedure, constitutional law, and criminal law. This new edition includes timely additions relating to the Defend Trade Secrets Act of 2016 (DTSA) and the EU Trade Secret Directive, two laws that went into effect in mid-2016, and which are certain to change the landscape of trade secret law in the United States and Europe. Unlike the only other existing casebook on the topic, this book continues to focus on and teach the predominant source of trade secret law in the U.S., the Uniform Trade Secrets Act (UTSA) as interpreted by courts throughout the U.S. The authors have made conscious and thoughtful decisions about the way in which the information throughout the casebook is presented and organized. The general organization of the casebook follows a logical analytical approach to understanding trade secret law with the chapters progressing from proving the essential elements of a trade secret claim to defensive tactics and remedies, managing trade secrets, and criminal actions. It also addresses employment, management, and international issues.

Children and the Law Jul 27 2019 This casebook emphasizes doctrine, policy, and practice. It presents three central themes: the interrelated rights and obligations of children, parents, and government; ways the legal system assesses and uses children's competence to shape regulation; and the role of the child's lawyer. Volume covers several relevant international law issues, including the UN Convention on the Rights of the Child, international child labor, and U.S. tobacco exports to children overseas. The authors have devoted entire chapters to the representation of children, the meaning of "parent," abuse and neglect, the foster care system, adoption, medical decision-making, support and other financial responsibilities, protective legislation, and delinquency.

AMERICAN CASEBOOK SERIES CASES ON SALES VOLD Aug 27 2019

Cases and Materials on Contracts Nov 03 2022 Introduces students to the study of the common-law legal system and the application of legal principles to complex transactions. In addition, it exposes students to statutory analysis. An feature of this book is that Uniform Commercial Code principles are integrated with common-law rules throughout the book. Material also exposes students to the methods and theories of Code interpretation.

Computer Crime Law Jun 17 2021 The second edition of Kerr's popular computer crimes text reflects the many new caselaw and statutory developments since the publication of the first edition in 2006. It also adds a new section on encryption that covers both Fourth Amendment and Fifth Amendment issues raised by its use to conceal criminal activity. Computer crime law will be an essential area for tomorrow's criminal law practitioners, and this book offers an engaging and user-friendly introduction to the field. It is part traditional casebook, part treatise: It both straightforwardly explains the law and presents many exciting and new questions of law that courts are only now beginning to consider. The book reflects the author's practice experience, as well: Orin Kerr was a computer crime prosecutor at the Justice Department for three years, and the book combines theoretical insights with practical tips for working with actual cases. No advanced knowledge of computers and the Internet is required or assumed. This

book covers every aspect of crime in the digital age. Topics range from Internet surveillance law and the Fourth Amendment to computer hacking laws and international computer crimes. More and more crimes involve digital evidence, and computer crime law will be an essential area for tomorrow's criminal law practitioners. Many U.S. Attorney's Offices have started computer crime units, as have many state Attorney General offices, and any student with a background in this emerging area of law will have a leg up on the competition. This is the first law school book dedicated entirely to computer crime law. The materials are authored entirely by Orin Kerr, a new star in the area of criminal law and Internet law who has recently published articles in the Harvard Law Review, Columbia Law Review, NYU Law Review, and Michigan Law Review. The book is filled with ideas for future scholarship, including hundreds of important questions that have never been addressed in the scholarly literature. The book reflects the author's practice experience, as well: Kerr was a computer crime prosecutor at the Justice Department for three years, and the book combines theoretical insights with practical tips for working with actual cases. Students will find it easy and fun to read, and professors will find it an engaging introduction to a new world of scholarly ideas. The book is ideally suited either for a 2-credit seminar or a 3-credit course, and should appeal both to criminal law professors and those interested in cyberlaw or law and technology. No advanced knowledge of computers and the Internet is required or assumed.

Criminal Procedure Jan 13 2021 This softcover book contains a complete, unchanged reprint of Chapter 1 and Chapters 11-19 of Dressler and Thomas' *Criminal Procedure: Principles, Policies and Perspectives*, Third Edition. Please see that description for more about the style and approach of this book. The pagination is the same in this softcover book as it is in the hardcover version
