**A Little Hope Dec 22 2021 "How do you hold onto hope in a difficult time? In the small city of Wharton, Connecticut, lives are beginning to unravel. A woman loses the love of her life. A son struggles with addiction. A widow misses her late spouse. A husband betrays his wife. At the heart of these interlinking stories is one couple: Freddie and Greg Tyler. Greg has just been diagnosed with multiple myeloma, a brutal form of cancer. He has never been dependent or weak, and wants to overcome this the way he has succeeded at everything else: through grit and determination. But can Greg fight his illness? How will Freddie and their daughter cope if he doesn't? How do the other residents of Wharton learn to live with loss and to find happiness again? A debut that pulls at the heartstrings and immerses readers in a community, A Little Hope broadcasts the joy and hope to be found in the everyday acts of loving, forgiving, and surviving"--**

**Brick by Brick Jun 03 2020 Winner of the Ezra Jack Keats New Illustrator Award! A striking debut celebrating the warm bond between a little boy and his dad as they work hard to achieve their dreams Papi is a bricklayer, and he works hard every day to help build the city, brick by brick. His son, Luis, works hard too--in school, book by book. Papi climbs scaffolds, makes mortar, and shovels sand. Luis climbs on the playground and molds clay into tiny bricks to make buildings, just like Papi. Together, they dream big about their future as they work to make those dreams come true. And then one Saturday, Papi surprises Luis with something special he's built for their family, brick by brick.**

***The Key to the Self* Sep 06 2020 Our fate is NOT written in the stars, as the popular form of interpreting horoscopes would like us to believe. Instead, a serious approach to astrology describes an individual's special dispositions and developmental possibilities that can be lived out in entirely different ways. The experienced Jungian analyst and astrologist Marianne Meister connects this reputable astrological approach with the**

**theories of C.G. Jung's Analytical Psychology. In her Depth Psychological Astrology, she works out the various basic patterns of the personality and makes it possible for readers to discover their own inclinations, needs, and potential. This book shows that the experiential knowledge from astrology and depth psychology can be used like a roadmap as important help in orientation on the path of life.**

**Working from Home with a Cat Feb 21 2022 This cute illustrated book shows what it's like to live and work from home with a cat, a situation over one third of us are familiar with. Stepping on computer keyboards, knocking things off the table, interrupting video calls—cats can be distracting coworkers. With colorful art and oh-so-relatable scenarios, Working from Home with a Cat takes readers through a day in the life of artist Heidi Moreno and her pet cat Peanut. From the time she wakes up until the time she goes to bed, she navigates working with her needy yet loveable feline companion, as Peanut walks over her paintings, hogs her chair, disrupts her yoga routine, and more. Despite all the struggles, cats like Peanut are always by our side when we need them, even on the hardest, loneliest workdays. Working from Home with a Cat reminds us why cats are the cutest colleagues and a source of comfort and calm in this chaotic world. • Features funny and heartwarming scenarios anyone who has tried to concentrate at home with a cat has experienced • For readers who like How to Tell if Your Cat is Plotting to Kill You, Herding Cats by Sarah Scribbles, and You Need More Sleep: Advice from Cats by Francesco Marciuliano**

***Consumable Reading and Children's Literature* Jul 05 2020 Consumable Reading and Children's Literature explores how multisensory experiences enhance early childhood literacy practices through material and sensory interactions. Embodied engagements that focus on the gustatory experience and, in particular, the sense of taste are investigated by studying food-related narratives. Children's literature and different reading scenarios involving consumable objects, packages, tableware and utensils are scrutinized. Surfaces, the underlying mechanisms that support children's literature, are considered in connection to emerging**

**media and groundbreaking technologies. The interdisciplinary nature of this work draws on material and surface science, human-computer interaction, arts and food studies. As innovation and everyday materials meet, the potential of hybrid narratives mimicking synesthesia emerges with discussions on cross-modal learning. This monograph will inspire the interest of not only students, teachers, scholars of children's literature and child development but also researchers and practitioners across various artistic and scientific disciplines.**

***Older Yet Faster* Jan 29 2020 Older Yet Faster (book with illustrations and photos, and online lesson and exercise videos) is a manual for teaching runners how to transition to efficient running and to help them to avoid incurring almost all of the common running injuries as they do so. It is ideal for beginners to learn how to run well and for experienced runners to changeover to good technique. Coaches can also use this book as a reference on how to implement technique change for their clients, and we expect it to become the go-to manual for medical professionals, to help them deal with running related injuries caused by bad technique and footwear. After learning how injuries are caused and then gaining a good understanding of running technique in the early chapters you will be prepared to read about our technique-change system which we call "OYF Running". This consists of "Keith's Lessons" used in combination with "Heidi's Strengthening Exercises" and forms the main body of the book." Keith shows you how to run efficiently in a simple, step-by-step guide both in the book and with videos. Each Lesson provides exercises set out in a format which is both easy to understand and implement. The first three lessons teach you the basics of running correctly and the last three help you put these into practice and help you to refine your technique over the period of your transition. This program is set up so that runners can teach themselves in conjunction with the online videos and forum. Heidi's Strengthening Exercises consists of a well-ordered series of exercises which will help your body safely adjust to the redistribution of the workload and are essential to rebuild parts of the body which have been neglected due to poor technique. It should be started as soon as possible, in order to build strength and to deal with the resultant muscle and tendon soreness that you will start to experience. We identify specific injuries and how they are caused and we show how by improving running technique, and re-strengthening these injuries are quickly cured. Podiatrists will find Heidi's experiences and advice particularly interesting, especially as they will almost certainly, be in conflict with what is still taught in universities. Chapters Twelve and Thirteen, 'Managing the changes' and 'Rehabilitation', explain what should happen during the transition and what to do should you get injured, or if you are currently injured. Chapter Fourteen is very important as you must have suitable footwear to run with good technique. There is then a chapter on how your body shape will change as you adopt your new technique and a chapter on general tips and traps a list of commonly used terms, a**

**glossary and an index. Finally, we have included three appendices: For Coaches, For Podiatrists and a detailed look at Heidi's strengthening program. In Appendix A, Keith discusses how to implement his Lessons from a coach's point of view, in Appendix B, Heidi explains how she treats her patients who are suffering with specific injuries and in Appendix C she explains her Strengthening program in greater detail for medical professionals and interested runners.**

***Heidi* May 15 2021** When Heidi's parents pass away, her aunt takes her in, but she soon sends Heidi to live with her grandfather in the Swiss Alps. At first, Heidi's grandfather seems gruff, but over time he becomes fond of her. Heidi grows to love the mountains and spends many hours with the goats and Peter, the goatherd, until she is sent to back to the city to be a companion to Clara, an invalid, and receive an education. Heidi learns that though the people in the city have more money, the people in the country lead richer lives. This classic Swiss children's book by Johanna Spyri was published in two parts in 1880 and 1881. This unabridged version comes from a 1915 edition, translated from the original German by Elisabeth P. Stork and illustrated by Maria L. Kirk.

**Picturing Disability Aug 06 2020** Midget, feeble-minded, crippled, lame, and insane: these terms and the historical photographs that accompany them may seem shocking to present-day audiences. A young woman with no arms wears a sequined tutu and smiles for the camera as she smokes a cigarette with her toes; a man holds up two prosthetic legs while his own legs are bared to the knees to show his missing feet. The photos were used as promotional material for circus sideshows, charity drives, and art galleries. They were found on begging cards and in family albums. In **Picturing Disability**, Bogdan and his collaborators gather over 200 historical photographs showing how people with disabilities have been presented and exploring the contexts in which they were photographed. Rather than focus on the subjects, Bogdan turns his gaze on the people behind the camera. He examines the historic and cultural environment of the photographs to decipher the relationship between the images and the perspectives of the picture makers. In analyzing the visual rhetoric of these photographs, Bogdan identifies the wide variety of genres, from sideshow souvenirs to clinical photographs. Ranging from the 1860s, when photographs first became readily available, to the 1970s, when the disability rights movement became a force for significant change, Bogdan chronicles the evolution of disability image creation. **Picturing Disability** takes the reader beyond judging images as positive or slanderous to reveal how particular contexts generate specific emotions and lasting depictions.
