Fonthill Recovered Aug 01 2022 Fonthill, in Wiltshire, is traditionally associated with the writer and collector William Beckford who built his Gothic fantasy house called Fonthill Abbey at the end of the eighteenth century. The collapse of the Abbey's tower in 1825 transformed the name Fonthill into a symbol for overarching ambition and folly, a sublime ruin. Fonthill is, however, much more than the story of one man's excesses. Beckford's Abbey is only one of several important houses to be built on the estate since the early sixteenth century, all of them eventually consumed by fire or deliberately demolished, and all of them oddly forgotten by historians. Little now remains: a tower, a stable block, a kitchen range, some dressed stone, an

indentation in a field. *Fonthill Recovered* draws on histories of art and architecture, politics and economics to explore the rich cultural history of this famous Wiltshire estate. The first half of the book traces the occupation of Fonthill from the Bronze Age to the twenty-first century. Some of the owners surpassed Beckford in terms of their wealth, their collections, their political power and even, in one case, their sexual misdemeanours. They include Charles I's Chancellor of the Exchequer, and the richest commoner in the nineteenth century. The second half of the book consists of essays on specific topics, filling out such crucial areas as the complex history of the designed landscape, the sources of the Beckfords' wealth and their collections, and one essay that features the most

recent appearance of the Abbey in a video game. **Encyclopædia Britannica: or, A dictionary of arts and sciences, compiled by a society of gentlemen in Scotland [ed. by W. Smellie]. Suppl. to the 3rd. ed., by G. Gleig** Oct 30 2019

Queens of the Crusades Jun 26 2019 Packed with incredible true stories and legendary medieval intrigue, this epic narrative history chronicles the first five queens from the powerful royal family that ruled England and France for over three hundred years. The Plantagenet queens of England played a role in some of the most dramatic events in our history. Crusading queens, queens in rebellion against their king, seductive queens, learned queens, queens in battle, queens who enlivened England with the romantic culture of southern Europe—these determined women often broke through medieval constraints to exercise power and influence, for good and sometimes for ill. This second volume of Alison Weir’s critically

acclaimed history of the queens of medieval England now moves into a period of even higher drama, from 1154 to 1291: years of chivalry and courtly love, dynastic ambition, conflict between church and throne, baronial wars, and the ruthless interplay between the rival monarchs of Britain and France. We see events such as the murder of Becket, the Magna Carta, and the birth of parliaments from a new perspective. Weir’s narrative begins with the formidable Eleanor of Aquitaine, whose marriage to Henry II established a dynasty that ruled for over three hundred years and created the most powerful empire in western Christendom—but also sowed the seeds for some of the most destructive family conflicts in history and for the collapse, under her son King John, of England’s power in Europe. The lives of Eleanor’s four successors were just as remarkable: Berengaria of Navarre, queen of Richard the Lionheart; Isabella of Angoulême, queen of John; Alienor of Provence, queen of Henry III; and finally Eleanor of

Castile, the grasping but beloved wife of Edward I. Through the story of these first five Plantagenet queens, Alison Weir provides a fresh, enthralling narrative focusing on these fascinating female monarchs during this dramatic period of high romance and sometimes low politics, with determined women at its heart.

Art in England Oct 03 2022 Art in England fills a void in the scholarship of both English and medieval art by offering the first single volume overview of artistic movements in Medieval and Early Renaissance England. Grounded in history and using the chronology of the reign of monarchs as a structure, it is contextual and

comprehensive, revealing unobserved threads of continuity, patterns of intention and unique qualities that run through English art of the medieval millennium. By placing the English movement in a European context, this book brings to light many ingenious innovations that focused studies tend not to recognize and offers a fresh look at the movement as a whole. The media studied include architecture and related sculpture, both ecclesiastical and secular; tomb monuments; murals, panel paintings, altarpieces, and portraits; manuscript illuminations; textiles; and art by English artists and by foreign artists commissioned by English patrons.

Charters of Malmesbury Abbey Dec 25 2021
Malmesbury Abbey was one of the few English minsters which had a continuous existence from the seventh to the sixteenth century, and the Malmesbury archive is a particularly important witness to the history of Wessex and the West Saxon church in the pre-Viking period. More than half of the surviving charters purport to date from the seventh and eighth centuries, many of them directly associated with Malmesbury's most celebrated abbot, the scholar and poet Aldhelm. This volume is the first scholarly edition of Malmesbury's pre-Conquest charters. The Malmesbury archive poses a particularly difficult editorial challenge, since the manuscripts are generally late and the abbey's scribes were prone to forgery and the 'improvement' of their muniments. Although the abbey had its own celebrated post-Conquest

historian in William of Malmesbury, regrettably little detailed information has survived about the early history of the monastery. Nevertheless, analysis of the charters has made it possible to build up a fairly coherent picture of Malmesbury's development in the first four centuries of its existence. This volume provides an important background to William of Malmesbury's *De gestis pontificorum Anglorum*, and includes significant new material for the study of William's use of historical documents. *Charters of Malmesbury Abbey* is comprised of editions of thirty-five charters and also a small group of separate boundary surveys, with expert detailed commentaries on their historical and topographical importance. The charters are prefaced by a lengthy introduction which presents a new synthesis of the history of the abbey and an extensive bibliography.

A Companion to the Abbey of Cluny in the Middle Ages Jun 18 2021 "Founded in 910 by Duke William of Aquitaine, the abbey of Cluny rose to prominence in the eleventh century as the most influential and opulent center for monastic devotion in medieval Europe. While the twelfth century brought challenges, both internal and external, the Cluniacs showed remarkable adaptability in the changing religious climate of the high Middle Ages. Written by international experts representing a range of academic disciplines, the contributions to this volume examine the rich textual and material sources for Cluny's history, offering not

only a thorough introduction to the distinctive character of Cluniac monasticism in the Middle Ages, but also the lineaments of a detailed research agenda for the next generation of historians. Contributors are: Isabelle Rosé, Steven Vanderputten, Marc Saurette, Denyse Riche, Susan Boynton, Anne Baud, Sébastien Barret, Robert Berkhofer III, Isabelle Cochelin, Michael Hänchen, Gert Melville, Eliana Magnani, Constance Bouchard, Benjamin Pohl, and Scott G. Glastonbury Abbey and the Arthurian Tradition

May 06 2020 The essays in this volume, some reprinted in their original form and some extensively revised, are concerned with the Arthurian traditions associated with Glastonbury Abbey. Certain of the essays are analytic and others provide editions of hitherto unknown

texts. They all examine ways in which legendary materials and historical facts interconnected in the process by which Glastonbury Abbey came to present itself, nationally and internationally, as the custodian of King Arthur's relics and the burial place of Joseph of Arimathea, and the importance, political and ecclesiastical, that it derived from the connection. Professor JAMES CARLEY is the author of *Glastonbury Abbey: The Holy House at the Head of the Moors* Adventurous and a past editor of *Arthurian Literature*. Topics: *Glastonbury Legends* (WATKIN, GRANSDEN), *Legend of St Joseph of Glastonbury* (LAGORIO), *Guinevere at Glastonbury* (WOOD), *Vera Historia de Morte Arthuri* (BARBER, LAPIDGE), *Was Mordred buried at Glastonbury?* (BARBER), *Glastonbury in Welsh Vernacular Tradition* (LLOYD-MORGAN), *Second Exhumation of Arthur's Remains, 1278* (PARSONS), *Abbey Memorial Plate* (GOODALL), *Arthur's Epitaph/s* (CARLEY, BROWN, WRIGHT, WITHRINGTON), *Hardyng*

and Holy Grail (KENNEDY, RIDDY), Henry V and Joseph of Arimathea's Bones, Holy Cross of Waltham at Montacute, Excavation of Arthur's Grave (CARLEY), Perlesvaus (Wells fragment), Quedam Narracio de nobili rege Arthuro, De Origine Gigantum (CARLEY, CRICK, EVANS), Glastonbury tablets (KROCHALIS), Relics in 14th Century (CARLEY, HOWLEY).

The Corpse as Text Feb 24 2022 Between 1700 and 1900, the subject of disinterment (exhumation) attracted the attention of antiquaries, who constructed a comprehensive memory of the past by 'reading' corpses as documents describing an idealised past.

Feeling Persecuted Aug 28 2019 In *Feeling Persecuted*, Anthony Bale explores the medieval Christian attitude toward Jews, which included a pervasive fear of persecution and an imagined fear of violence enacted against Christians. As a result, Christians retaliated with expulsions, riots, and murders that systematically denied

Jews the right to religious freedom and peace. Through close readings of a wide range of sources, Bale exposes the perceived violence enacted by the Jews and how the images of this Christian suffering and persecution were central to medieval ideas of love, community, and home. The images and texts explored by Bale expose a surprising practice of recreational persecution and show that the violence perpetrated against medieval Jews was far from simple anti-Semitism and was in fact a complex part of medieval life and culture. Bale's comprehensive look at medieval poetry, drama, visual culture, theology, and philosophy makes *Feeling Persecuted* an important read for anyone interested in the history of Christian-Jewish relations and the impact of this history on modern culture.

Westminster: A Biography Apr 28 2022 This is the remarkable story of Westminster, a royal capital that became the birthplace of parliamentary government and the centre of a world power. It is about the place, its people and their close relationship. They have made and shaped one another. The ancient heart of Westminster is only the size of a village, yet it boasts world famous buildings: the Abbey, the Houses of Parliament and Number 10 Downing Street. As befits a village, Westminster is rich in folklore and gossip, yet its story is central to Britain's history and anywhere that has parliamentary government. This biography of Westminster traces the extraordinary transformation of a secluded island on the banks

of the Thames into a spiritual centre, a royal ceremonial stage and a political capital. It brings to life the monarchs and prime ministers for whom Westminster has been home, the architects and writers whom it inspired, and the protestors and rebels whom it provoked. It is a tale of inspiration, intrigue, power, protest and terror.

Nordic Elites in Transformation, c. 1050-1250, Volume II May 30 2022 Nordic Elites in Transformation, c. 1050-1250, Volume II explores the structures and workings of social networks within the elites of medieval Scandinavia to reveal the intricate relationship

between power and status. Section one of this volume categorizes basic types of personal bonds, both vertical and horizontal, while section two charts patterns of local, regional and transnational elite networks from wide-scope, longitudinal perspectives. Finally, the third section turns to case-studies of networks in action, analyzing strategies and transactions implied by uses of social resources in specific micro-political settings. A concluding chapter discusses how social power in the North compared to wider European experiences. A wide range of sources and methodologies is applied to reveal how networks were established, maintained, and put to use – and how they transformed in processes of centralizing power and formalizing hierarchies. The engagement with and analysis of intriguing primary source material has produced a key teaching tool for instructors and essential reading for students interested in the workings of medieval Scandinavia, elite class structures,

and Social and Political History more generally. **The Chronicle of Glastonbury Abbey** Sep 02 2022 John of Glastonbury's chronicle represents an attempt to summarise the lore and learning about Glastonbury Abbey and its past available in the fourteenth century, a body of knowledge which changed very little before the Reformation. The author drew on a large number of sources and edited these skilfully to form his narrative, while preserving the earlier text almost intact. The result is the fullest medieval account of the abbey and its legends, and this edition will be very welcome, drawing as it does on the latest research. A translation is included, which makes the important text available in English for the first time, and the whole volume is designed as a companion to John Scott's edition and translation of William of Malmesbury's twelfth century account of the abbey's history.

In many and complex ways Beaconsfield is an essential key to the Edmund Burke who defined himself as the embodiment of Cicero's "new man" and whose marital relationship with Jane Nugent Burke sustained, nurtured, and drove him throughout his political career."

[The Abbey of Cluny](#) Jun 30 2022 The essays published in this volume cover many aspects of the history of Cluny from its foundation until the end of the twelfth century. Four of them are

published here for the first time, and others appear in a revised form. The three articles on Cluny in the tenth, eleventh, and twelfth centuries constitute a brief survey of Cluny at the height of its prestige and influence. Others, such as the articles on Cluny and the Investiture Controversy and the First Crusade, deal with the influence of Cluny outside its walls. Yet others are concerned with the relations between Cluny and other orders, between Cluny and its dependent houses, and between the abbey and town of Cluny. The remainder study the internal history of the abbey, the administration, legislation, and finances of the order, and its development and problems, especially in the twelfth century.
