The Cambridge History of Latin American Literature Sep 07 2020 "Primary and vital resource for literary specialists, historians, students of all levels, and general readers interested in this period. Leading scholars write about diverse genres (narrative, essay, poetry, theater) and cultural interests and ideas (intellectual life, historiography, Viceregal culture, Mesoamerican indigenous peoples and cultures). Literature articles include analysis and discussion of canonic and previously marginalized authors and treat representative works, genres, and literary and philosophical currents. Extremely useful, well written, and interesting"--Handbook of Latin American Studies, v. 58. *Bowling Alone* Jul 26 2019 Shows how changes in work, family structure, women's roles, and other factors have caused people to become increasingly disconnected from family, friends, neighbors, and democratic structures--and how they may reconnect.

The Federalist Papers Nov 21 2021 Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for

the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

Reinterpreting the Spanish American Essay Aug 07 2020 Latin American women have long written essays on topics ranging from gender identity and the female experience to social injustice, political oppression, lack of educational opportunities, and the need for female solidarity in a patriarchal environment. But this rich vein of writing has often been ignored and is rarely studied. This volume of twenty-one original studies by noted experts in Latin American literature seeks to recover and celebrate the accomplishments of Latin American women essayists. Taking a variety of critical approaches, the authors look at the way women writers have interpreted the essay genre, molded it to their expression, and created an intellectual tradition of their own. Some of the writers they treat are Flora Tristan, Gertrudis Gómez de Avellaneda, Clorinda Matto de Turner, Victoria Ocampo,

Alfonsina Storni, Rosario Ferré, Christina Peri Rossi, and Elena Poniatowska. This book is the first of a two-volume project that will reexamine the Latin American essay from a feminist perspective. The second volume, also edited by Doris Meyer, contains thirty-six essays in translation by twenty-two women authors.

Minor Feelings Dec 31 2019 NEW YORK TIMES BESTSELLER • PULITZER PRIZE FINALIST • NATIONAL BOOK CRITICS CIRCLE AWARD WINNER • ONE OF TIME'S 100 MOST INFLUENTIAL PEOPLE • A ruthlessly honest, emotionally charged, and utterly original exploration of Asian American consciousness "Brilliant . . . To read this book is to become more human."—Claudia Rankine, author of *Citizen In* in development as a television series starring and adapted by Greta Lee • One of Time's 10 Best Nonfiction Books of the Year • Named One of the Best Books of the Year by The New York Times, The Washington Post, NPR, New Statesman, BuzzFeed, Esquire, The New York Public Library, and Book Riot Poet and essayist Cathy Park Hong fearlessly and provocatively blends memoir, cultural criticism, and history to expose fresh truths about racialized consciousness in America. Part memoir and part cultural criticism, this collection is

vulnerable, humorous, and provocative—and its relentless and riveting pursuit of vital questions around family and friendship, art and politics, identity and individuality, will change the way you think about our world. Binding these essays together is Hong’s theory of “minor feelings.” As the daughter of Korean immigrants, Cathy Park Hong grew up steeped in shame, suspicion, and melancholy. She would later understand that these “minor feelings” occur when American optimism contradicts your own reality—when you believe the lies you’re told about your own racial identity. Minor feelings are not small, they’re dissonant—and in their tension Hong finds the key to the questions that haunt her. With sly humor and a poet’s searching mind, Hong uses her own story as a portal into a deeper examination of racial consciousness in America today. This intimate and devastating book traces her relationship to the English language, to shame and depression, to poetry and female friendship. A radically honest work of art, *Minor Feelings* forms a portrait of one Asian American psyche—and of a writer’s search to both uncover and speak the truth. Praise for *Minor Feelings* “Hong begins her new book of essays with a bang. . . .The essays wander a variegated terrain of memoir, criticism and polemic, oscillating between smooth proclamations of certainty and twitches of self-doubt. . . . *Minor Feelings* is studded with moments [of] candor and dark humor shot through with glittering self-awareness.”—The New York Times “Hong uses her own experiences as a jumping off point to examine race and emotion in the United States.”—Newsweek “Powerful . . . [Hong] brings together memoiristic personal essay and reflection, historical accounts and modern reporting, and other works of art and writing, in order to amplify a multitude of voices and capture Asian America as a collection of contradictions. She does so with sharp wit and radical transparency.”—Salon

How to Slowly Kill Yourself and Others in America Dec 23 2021 A New York Times Notable Book A revised collection with thirteen essays, including six new to this edition and seven from the original edition, by the “star in the American literary firmament, with a voice that is courageous, honest, loving, and singularly beautiful” (NPR). Brilliant and uncompromising, piercing and funny, *How to Slowly Kill Yourself and Others in America* is essential reading. This new edition of award-winning author Kiese Laymon’s first work of nonfiction looks inward, drawing heavily on the author and his family’s experiences, while simultaneously examining the world—Mississippi, the South, the United States—that has shaped their lives. With subjects that range from an interview with his mother to reflections on Ole Miss football, Outkast, and the labor of Black women, these thirteen insightful essays highlight Laymon’s profound love of language and his artful rendering of experience, trumpeting why he is “simply one of the most talented writers in America” (New York magazine).

On Freedom and the Will to Adorn Jul 18 2021 Although they have written in various genres, African American writers as notable and diverse as W. E. B. Du Bois, James Baldwin, and Alice Walker have done their most influential work in the essay form. *The Souls of Black Folk*, *The Fire Next Time*, and *In Search of Our Mothers' Gardens* are landmarks in African American literary history. Many other writers, such as Ralph Ellison, Zora Neale Hurston, James Weldon Johnson, and Richard Wright, are acclaimed essayists but achieved greater fame for their work in other genres; their essay work is often overlooked or studied only in the contexts of their better-known works. Here Cheryl A. Wall offers the first sustained study of the African American essay as a distinct literary genre. Beginning with the sermons, orations, and writing of nineteenth-century men and women like Frederick Douglass who laid the foundation for the African American essay, Wall examines the genre's evolution through the Harlem Renaissance. She then turns her attention to four writers she regards as among the most influential essayists of the twentieth century: Baldwin, Ellison, June Jordan, and Alice Walker. She closes the book with a discussion of the status of the essay in the twenty-first century as it shifts its medium from print to digital in the hands of writers like Ta-Nehisi Coates and Brittney Cooper. Wall's beautifully written and insightful book is nothing less than a redefinition of how we understand the genres of African American literature.

Dumbing Down Mar 02 2020 Twenty essays consider the impact of the declining American cultural standard

The Divided States of America Jul 30 2022 "As James Madison led America's effort to write its Constitution, he made two great inventions—the separation of powers and federalism. The first is more famous, but the second was most essential because, without federalism, there could have been no United States of America. Federalism has always been about setting the balance of power between the federal government and the states—and that's revolved around deciding just how much inequality the country was prepared to accept in exchange for making peace among often-warring states. Through the course of its history, the country has moved through a series of phases, some of which put more power into the hands of the federal government, and some rested more power in the states. Sometimes this rebalancing led to armed conflict. The Civil War, of course, almost split the nation permanently apart. And sometimes it led to political battles. By the end of the 1960s, however, the country seemed to have settled into a quiet agreement that inequality was a prime national concern, that the federal government had the responsibility for addressing it through its own policies, and that the states would serve as administrative agents of that policy. But as that agreement seemed set, federalism drifted from national debate, just as the states began using their administrative role to push in very different directions. The result has been a rising tide of inequality, with the great invention that helped create the nation increasingly driving it apart"--

The American Essay in the American Century Feb 22 2022 "With

extensive research and a cultural context, Stuckey-French describes the many reasons essays grew in appeal and importance for Americans. He also explores the rise of E.B. White, considered by many the greatest American essayist of the first half of the twentieth century... This book is one of the first to consider and reflect on the contributions of E.B. White to the personal essay tradition and American culture more generally"--Book jacket.

The Glorious American Essay Oct 01 2022 A monumental, canon-defining anthology of three centuries of American essays, from Cotton Mather and Benjamin Franklin to David Foster Wallace and Zadie Smith—selected by acclaimed essayist Phillip Lopate "Not only an education but a joy. This is a book for the ages." —Rivka Galchen, author of *Atmospheric Disturbances* The essay form is an especially democratic one, and many of the essays Phillip Lopate has gathered here address themselves—sometimes critically—to American values. We see the Puritans, the Founding Fathers and Mothers, and the stars of the American Renaissance struggle to establish a national culture. A grand tradition of nature writing runs from Audubon, Thoreau, and John Muir to Rachel Carson and Annie Dillard. Marginalized groups use the essay to assert or to complicate notions of identity. Lopate has cast his net wide, embracing critical, personal, political, philosophical, literary, polemical, autobiographical, and humorous essays. Americans by birth as well as immigrants appear here, famous essayists alongside writers more celebrated for fiction or poetry. The result is a dazzling overview of the riches of the American essay.

Lost In Summerland Apr 02 2020 Barrett Swanson embarks on a personal quest across the United States to uncover what it means to be an American amid the swirl of our post-truth climate in this collection of critically acclaimed essays and reportage. A trip with his brother to a New York psychic community becomes a rollicking tour through the world of American spiritualism. At a wilderness retreat in Ohio, men seek a cure for toxic masculinity, while in the hinterlands of

Wisconsin, antiwar veterans turn to farming when they cannot sustain the heroic myth of service. And when his best friend's body washes up on the shores of the Mississippi River, he falls into the gullet of true crime discussion boards, exploring the stamina of conspiracy theories along the cankered byways of the Midwest. In this exhilarating debut, Barrett Swanson introduces us to a new reality. At a moment when grand unifying narratives have splintered into competing storylines, these critically acclaimed essays document the many routes by which people are struggling to find stability in the aftermath of our country's political and economic collapse, sometimes at dire and disillusioning costs.

Rereading the Spanish American Essay Nov 09 2020 "The essays are clearly chosen to be different in style and content from the 'malestream' canon, and the book as a whole is full of old friends and welcome new surprises.... It will be of interest not only to Latin Americanists, but also to the wider community interested in non-European gender studies and cultural studies." —Debra A. Castillo, Cornell University Latin American intellectual history is largely founded on essayistic writing. Women's essays have always formed a part of this rich tradition, yet they have seldom received the respect they merit and are often omitted entirely from anthologies. This volume and its earlier companion, *Reinterpreting the Spanish American Essay: Women Writers of the 19th and 20th Centuries*, seek to remedy that neglect. This book collects thirty-six notable essays by twenty-two women writers, including Flora Tristan, Gertrudis Gómez de Avellaneda, Clorinda Matto de Turner, Victoria Ocampo, Alfonsina Storni, Rosario Ferré, Christina Peri Rossi, and Elena Poniatowska. All of the essays are here translated into English for the first time, many by the same scholars who wrote critical studies of the authors in the first volume. Each author's work is also prefaced by a brief biographical sketch.
