Advancing gender equality through agricultural and environmental research: Past, present, and future Dec 22 2021 Over the past decade, interest in gender equality and women's empowerment has grown rapidly, creating a unique opportunity to institutionalize gender research within agricultural research for development. This book, edited by researchers from the CGIAR Gender Platform, reviews and reflects on the growing body of evidence from gender research. It marks a shift a way from a traditional focus on how gender analysis can contribute to improved productivity, flipping the question to ask, How does agricultural and environmental research and development contribute to gender equality and women's empowerment? Chapters synthesize the wide range of CGIAR and other research in this area, covering breeding research and seed systems, value chain participation, nutrition-sensitive agriculture, natural resources, climate adaptation and mitigation, the "feminization" of agriculture, women's role in agricultural research, and emerging gender transformative approaches.

European Union Law Jun 15 2021 Now in its second edition, *European Union Law* has been fully revised and updated following the entry into force of the Lisbon Treaty in December 2009. The book contains entirely new chapters on the Protection of Human Rights in the EU; the Area of Freedom, Security and Justice and the Common Foreign and Security Policy. Specifically written to give law students detailed up-to-date knowledge of all main areas of EU law, the book provides an in-depth and detailed examination of, and commentary on the areas of institutional and of substantive EU law forming the syllabus of standard academic courses on EU law. Unlike other texts this book successfully combines authoritative text with case summaries and judgments, these being highlighted in colour tinted boxes for easy identification. The author identifies the relevant points and key facts of the leading cases and discusses the judgments in detail, often in the light of subsequent developments. Student-friendly features include: short summaries at the beginning of each chapter outlining the topics and concepts covered an aide-memoire at the end of each chapter to highlight and reflect the main points a recommended reading list at the end of each chapter to facilitate further research a map identifying EU Member States (with accession dates) and candidate states a Companion Website featuring updates twice yearly; annotated links to online sources of interest and essay style self-test questions with suggested answers. This book is an essential resource for those studying EU law on both undergraduate and postgraduate courses and will be of interest to students of political science, social science and business studies.

Gender in Agriculture Mar 25 2022 The Food and Agriculture Organization of the United Nations (FAO) produced a 2011 report on women in agriculture with a clear and urgent message: agriculture underperforms because half of all farmers—women—lack equal access to the resources and opportunities they need to be more productive. This book builds on the report's conclusions by providing, for a non-specialist audience, a compendium of what we know now about gender gaps in agriculture.

Innovative Institutions, Public Policies and Private Strategies for Agro-

Enterprise Development Jul 17 2021 In an effort to promote agro-enterprises and agro-industries as viable forms of inclusive development, the Food and Agriculture Organization of the United Nations (FAO) and The Cornell International Institute for Food, Agriculture and Development (CIIFAD) in collaboration with the International Association of Agricultural Economists (IAAE), organized an international symposium on the topic "Innovative Institutions, Public Policies, and Private Strategies for Inclusive Agro-Enterprise Development", as part of the Triennial Meetings of the IAAE held in Foz do Iguaçu, Brazil, in August 2012. This book contains the major papers presented at the symposium, which feature a wide range of country and regional experiences and examine the influence of markets and technology transfer to agro-enterprises on food security, poverty, and economic growth. The contributions also identify alternative market access strategies for sustainable economic development. This volume will enrich existing knowledge of agro-enterprises as a channel for promoting inclusive growth and reducing poverty levels across developing and emerging markets.
