The Fragility of Modern Societies May 29 2022 This book argues that knowledge is now central to the modern economy and its productive processes. It is also essential for social relations, social cohesion and conflict resolution. We have moved from a society based around heavy commodities to symbolic goods, from situated markets to non-place-specific locations, from machines to software and from things to ideas. These changes produce new forms of social interaction and new perspectives on identity, practice and association. This penetrating book slices through the cliches and blind alleys of discussions around the knowledge society to reveal the tendons of contemporary change. Written with insight and panache the book explains the momentous nature of the changes associated with the knowledge society.

Knowledge Apr 27 2022 As we move through our modern world, the phenomenon we call knowledge is always involved. Whether we talk of know-how, technology, innovation, politics or education, it is the concept of knowledge that ties them all together. But despite its ubiquity as a modern trope we seldom encounter knowledge in itself. How is it produced, where does it reside, and who owns it? Is knowledge always beneficial, will we know all there is to know at some point in the future, and does knowledge really equal power? This book pursues an original approach to this concept that seems to define so many aspects of modern societies. It explores the topic from a distinctly sociological perspective, and traces the many ways that knowledge is woven into the very fabric of modern society.

Objects of Design from the Museum of Modern Art Mar 27 2022 The book's 341 color plates, arranged in nine thematic sections, reveal the huge variety of aesthetic and conceptual viewpoints in design since the late nineteenth century and together trace the historical development of modern design as well as that of the Museum's celebrated design collection. The volume's authoritative texts include a preface by Terence Riley, The Philip Johnson Chief Curator of Architecture and Design at the Museum, and an introductory essay by Curator Paola Antonelli. The lavish plate section is enriched by numerous brief texts by these and other curators in the Architecture and Design department, which illuminate the entire course of modern design, its major styles, and its individual masterpieces. *Objects of Design* is the second in a series of three volumes on the holdings of the department, the first of which, *Envisioning Architecture*, surveys the Museum's extraordinary architecture drawings.

The Use of Asian Theatre for Modern Western Theatre Sep 28 2019 This book is a historical study of the use of Asian theatre for modern Western theatre as practiced by its founding fathers, including Aurélien Lugné-Poe, Adolphe Appia, Gordon Craig, W. B. Yeats, Jacques Copeau, Charles Dullin, Antonin Artaud, V. E. Meyerhold, Sergei Eisenstein, and Bertolt Brecht. It investigates the theories and practices of these leading figures in their transnational and cross-cultural relationship with Asian theatrical traditions and their interpretations and appropriations of the Asian traditions in their reactional struggles against the dominance of commercialism and naturalism. From the historical and aesthetic perspectives of traditional Asian theatres, it approaches this intercultural phenomenon as a (Euro)centred process of displacement of the aesthetically and culturally differentiated Asian theatrical traditions and of their historical differences and identities. Looking into the displaced and distorted mirror of Asian theatre, the founding fathers of modern Western theatre saw, in their imagination of the 'ghostly' Other, nothing but a (self-)reflection or, more precisely, a (self-)projection and emplacement, of their competing ideas and theories preconceived for the construction, and the future development, of modern Western theatre.

Flu Dec 12 2020 The fascinating, true story of the world's deadliest disease. In 1918, the Great Flu Epidemic felled the young and healthy virtually overnight. An estimated forty million people died as the epidemic raged. Children were left orphaned and families were devastated. As many American soldiers were killed by the 1918 flu as were killed in battle during World War I. And no area of the globe was safe. Eskimos living in remote outposts in the frozen tundra were sickened and killed by the flu in such numbers that entire villages were wiped out. Scientists have recently rediscovered shards of the flu virus frozen in Alaska and

preserved in scraps of tissue in a government warehouse. Gina Kolata, an acclaimed reporter for The New York Times, unravels the mystery of this lethal virus with the high drama of a great adventure story. Delving into the history of the flu and previous epidemics, detailing the science and the latest understanding of this mortal disease, Kolata addresses the prospects for a great epidemic recurring, and, most important, what can be done to prevent it.

I Need All the Friends I Can Get Jun 25 2019 A classic Peanuts gift book, reissued in its original format, featuring Charlie Brown and the gang discovering that friends can be found in the unlikeliest of places. "A friend is someone who will share his home with you." First published in 1964, this classic Peanuts book features Charles Schulz's original drawings of Charlie Brown, Snoopy, Lucy, and the rest of the Peanuts gang as they try to answer the question: What is the meaning of friendship? This is the perfect gift to celebrate and cherish your friends!

Italian Prints, 1875-1975 Jan 31 2020 Italian printmakers were at the forefront of contemporary stylistic movements. They pioneered Futurism, Metaphysical Painting and Arte Povera. Morandi, De Chirico and Fontana are just some of the major artists in this medium who are discussed in this book. Independence in Italy in 1861 led to a remarkable revival of high quality printmaking. This catalogue discusses the Italians' engagement with naturalism, realism and symbolism as well as their relationships with other European artists. At the end of the nineteenth century the foundation of the Venice Biennale and a series of prominent international exhibitions had an enormous impact on the Italian work. They were influenced by French, German, Swiss, British and American printmaking. This fully illustrated catalogue is the first publication of its kind and draws from the collection recently founded by The British Museum, supplemented with works from the Estorick, Tate Modern and Victoria and Albert Museum. Included are 123 works by 45 artists, introduced by a general discussion of printmaking in Italy since the beginning of the nineteenth century.

Garó Z. Antreasian Jun 17 2021 Garó Z. Antreasian (b. 1922) belongs to the great generation of innovators in mid-twentieth-century American art. While influenced by a variety of European artists in his early years, it was his involvement with Tamarind Lithography Workshop starting in 1960 that transformed his work. As Tamarind's founding technical director, he revolutionized the medium of lithography. He discovered how to manipulate the spontaneous possibilities of lithography in the manner of the Abstract Expressionist painters. In addition to reflecting on his work, he writes movingly about his Armenian heritage and its importance in his art, his teaching, and his love affair with all sorts of artistic media.

Illustrating his drawings, paintings, and prints, this book reveals Antreasian as a major American artist. This book was made possible in part by generous contributions from the Frederick Hammersley Foundation and Gerald Peters Gallery.

The Threat of Pandemic Influenza Jan 25 2022 Public health officials and organizations around the world remain on high alert because of increasing concerns about the prospect of an influenza pandemic, which many experts believe to be inevitable. Moreover, recent problems with the availability and strain-specificity of vaccine for annual flu epidemics in some countries and the rise of pandemic strains of avian flu in disparate geographic regions have alarmed experts about the world's ability to prevent or contain a human pandemic. The workshop summary, *The Threat of Pandemic Influenza: Are We Ready?* addresses these urgent concerns. The report describes what steps the United States and other countries have taken thus far to prepare for the next outbreak of "killer flu." It also looks at gaps in readiness, including hospitals' inability to absorb a surge of patients and many nations' incapacity to monitor and detect flu outbreaks. The report points to the need for international agreements to share flu vaccine and antiviral stockpiles to ensure that the 88 percent of nations that cannot manufacture or stockpile these products have access to them. It chronicles the toll of the H5N1 strain of avian flu currently circulating among poultry in many parts of Asia, which now accounts for the culling of millions of birds and the death of at least 50 persons. And it compares the costs of preparations with the costs of illness and death that could arise during an outbreak.

The Life of Luigi Giussani Oct 22 2021 Monsignor Luigi Giussani (1922-2005) was the founder of the Catholic lay movement Communion and Liberation in Italy, which has hundreds of thousands of adherents around the globe. In *The Life of Luigi Giussani* Alberto Savorana, who spent an important part of his life working and studying with Giussani, draws on many unpublished documents to recount who the priest was and how he lived. Giussani's life story is particularly significant because it

shares many of the same challenges, risks, and paths toward enlightenment that are described in his numerous and influential publications. Savorana demonstrates that the circumstances Giussani experienced and the people he encountered played a crucial role in defining his vocation. Illuminating details are shared about Giussani's parents, professors, and friends in the seminary, the things he read, his priesthood, his experience teaching, misunderstandings and moments of recognition, and illness. Luigi Giussani considered Christianity to be a fact, a real event in human life, which takes the form of an encounter, inviting anyone and everyone to verify its relevance to life's needs. This is what happened for so many people all over the world who recognized in this priest and leader, with his rough and captivating voice, not only a teacher to learn from, but above all a man to compare oneself with - a companion for the journey who could be trusted to answer the question: how can we live? In addition to providing the first chronological reconstruction of the life of the founder of Communion and Liberation, The Life of Luigi Giussani provides a detailed account of his legacy and what his life's work meant to individual people and the Church.
