Never Work Harder Than Your Students and Other Principles of Great Teaching Jul 31

2022 Some great teachers are born, but most are self-made. And the way to make yourself a great teacher is to learn to think and act like one. In this updated second edition of the best-selling *Never Work Harder Than Your Students*, Robyn R. Jackson reaffirms that every teacher can become a master teacher. The secret is not a specific strategy or technique, nor it is endless hours of prep time. It's developing a master teacher mindset—rigorously applying seven principles to your teaching until they become your automatic response: Start where your students are. Know where your students are going. Expect to get your students there. Support your students along the way. Use feedback to help you and your students get better. Focus on quality rather than quantity. Never work harder than your students. In her conversational and candid style, Jackson

explains the mastery principles and how to start using them to guide planning, instruction, assessment, and classroom management. She answers questions, shares stories from her own practice and work with other teachers, and provides all-new, empowering advice on navigating external evaluation. There's even a self-assessment to help you identify your current levels of mastery and take control of your own practice. Teaching is hard work, and great teaching means doing the right kind of hard work: the kind that pays off. Join tens of thousands of teachers around the world who have embarked on their journeys toward mastery. Discover for yourself the difference that Jackson's principles will make in your classroom and for your students.

Tackling Bullying in Your School Dec 24

2021 This comprehensive collection of essays provides a series of highly practical guidelines which schools can implement themselves. Step-by-step advice is given on developing a whole-school policy which is generally seen as the

essential nucleus of effective action. The book also suggests methods for tackling bullying through classroom and curriculum activities, including video, drama, and the use of quality circles and of working with pupils involved in bullying situations. Emphasis is placed on assertiveness training for pupils who may be bullied, and non-punitive work with pupils who bully others. As the majority of bullying takes place in playgrounds, the book includes innovative sections on training lunchtime supervisors, enhancing playground activities, and improving the playground environment.
