Romania Nov 10 2020 This paper discusses Romania's Ex-Post Evaluation of Exceptional Access under the 2013 Stand-by Arrangement. Romania experienced strong economic growth in 2016, resulting in a closed output gap. Private consumption was boosted by an expansionary and procyclical fiscal policy and wage increases. The cyclically adjusted budget deficit grew by 1.5 percent of GDP in 2016, reflecting large tax rate cuts and wage increases. Growth is expected to reach 4.2 percent in 2017—supported by continued stimulus to private consumption from a new round of fiscal relaxation and wage increases—and to moderate to 3.5 percent in the medium term.

Almost All Aliens Nov 22 2021 Almost All Aliens offers a unique reinterpretation of immigration in the history of the United States. Setting aside the European migrant-centered melting-pot model of immigrant assimilation, Paul Spickard, Francisco Beltrán, and Laura Hooton put forward a fresh and provocative reconceptualization that embraces the multicultural, racialized, and colonially inflected reality of immigration that has always existed in the United States. Their astute study illustrates the complex relationship between ethnic identity and race, slavery, and colonial expansion. Examining the lives of those who crossed the Atlantic, as well as those who crossed the Pacific, the Caribbean, and the North American Borderlands, Almost All Aliens provides a distinct, inclusive, and critical analysis of immigration, race, and identity in the United States from 1600 until the present. The second edition updates Almost All Aliens through the first two decades of the twenty-first century, recounting and analyzing the massive changes in immigration policy, the reception of immigrants, and immigrant experiences that whipsawed back and forth throughout the era. It includes a new final chapter that brings the story up to the present day. This book will appeal to students and researchers alike studying the history of immigration, race, and colonialism in the United States, as well as those interested in American identity, especially in the context of the early twenty-first century.
