Landscape of Migration Jun 28 2022 In the wake of a 1952 revolution, leaders of Bolivia's National Revolutionary Movement (MNR) embarked on a program of internal colonization known as the "March to the East." In an impoverished country dependent on highland mining, the MNR sought to convert the nation's vast "undeveloped" Amazonian frontier into farmland, hoping to achieve food security, territorial integrity, and demographic balance. To do so, they encouraged hundreds of thousands of Indigenous Bolivians to relocate from the "overcrowded" Andes to the tropical lowlands, but also welcomed surprising transnational migrant streams, including horse-and-buggy Mennonites from Mexico and displaced Okinawans from across the Pacific. Ben Nobbs-Thiessen details the multifaceted results of these migrations on the environment of the South American interior. As he reveals, one of the "migrants" with the greatest impact was the soybean, which Bolivia embraced as a profitable cash crop while eschewing earlier goals of food security, creating a new model for extractive export agriculture. Half a century of colonization would transform the small regional capital of Santa Cruz de la Sierra into Bolivia's largest city, and the diverging stories of Andean, Mennonite, and Okinawan migrants complicate our understandings of tradition, modernity, foreignness, and belonging in the heart of a rising agro-industrial empire.

The Blindness Revolution Mar 14 2021 This book recounts the dramatic story of the transformation of the Iowa Commission for the Blind from a verifiably ineffective service agency to perhaps the most outstanding and effective adult service program in the nation in the span of 10 short years. What happened in Iowa was revolutionary, and the character of work with the blind in America and around the world was altered forever—the alternative civil rights-based service model worked. Using Kenneth Jernigan's own writings of Board meeting minutes, reports, and letters, I present the details of the remarkable story from an activist's point of view. This book will certainly be of interest to those who work in the field of blindness, particularly those who work in agencies serving the blind, but this book is more than just a study in public administration. Omvig's research fills in significant gaps in the history of the blind movement and offers the reader a front-row seat to a pivotal moment in blind history. — Brian Miller, University of Iowa

Murder in the Garment District Aug 07 2020 The thrilling and true account of racketeering and union corruption in mid-century New York, when unions and the mob were locked in a power struggle that reverberates to this day In 1949, in New York City's crowded Garment District, a union organizer named William Lurye was stabbed to death by a mob assassin. Through the lens of this murder case, prize-winning authors David Witwer and Catherine Rios explore American labor history at its critical turning point, drawing on FBI case files and the private papers of investigative journalists who first broke the story. A narrative that originates in the garment industry of mid-century New York, which produced over 80 percent of the nation's dresses at the time, *Murder in the Garment District* quickly moves to a national stage, where congressional anti-corruption hearings gripped the nation and forever tainted the reputation of American unions. Replete with elements of a true-crime thriller, *Murder in the Garment District* includes a riveting cast of characters, from wheeling and dealing union president David Dubinsky to the notorious gangster Abe Chait and the crusading Robert F. Kennedy, whose public duel with Jimmy Hoffa became front-page news. Deeply researched and grounded in the street-level events that put people's lives and livelihoods at stake, *Murder in the Garment District* is destined to become a classic work of history—one that also explains the current troubled state of unions in America.

Trinity University Mar 26 2022 Since its founding in 1869 by the Cumberland Presbyterian Church, Trinity University has been engaged in realizing the dreams of its founders to become “a University of the highest order.” In *Trinity University: A Tale of Three Cities*, R. Douglas Brackenridge, professor emeritus of religion at Trinity, brings a wealth of scholarship and knowledge to this institutional history. Brackenridge traces Trinity’s unique heritage from its founding in Tehuacana and growth in Waxahachie to its emergence in San Antonio as a top private university for the study of liberal arts and sciences. He draws on historical records and reports, oral histories, newspaper accounts, books, correspondence, and archives to document the university’s challenges and successes. He describes Trinity’s development within the broader context of private, church-related universities in America, while profiling the administrators, faculty, staff, and students who have contributed to Trinity’s rich heritage. The result is a well-researched story of the founding and the progression of one of the nation’s exceptional institutions for higher learning. Illustrations picture Trinity’s campuses in three cities and include black and white photographs.

The Shadow University Jun 04 2020 Universities once believed themselves to be sacred enclaves, where students and professors could debate the issues of the day and arrive at a better understanding of the human condition. Today, sadly, this ideal of the university is being quietly

betrayed from within. Universities still set themselves apart from American society, but now they do so by enforcing their own politically correct worldview through censorship, double standards, and a judicial system without due process. Faculty and students who threaten the prevailing norms may be forced to undergo "thought reform." In a surreptitious aboutface, universities have become the enemy of a free society, and the time has come to hold these institutions to account. The Shadow University is a stinging indictment of the covert system of justice on college campuses, exposing the widespread reliance on kangaroo courts and arbitrary punishment to coerce students and faculty into conformity. Alan Charles Kors and Harvey A. Silverglate, staunch civil libertarians and active defenders of free inquiry on campus, lay bare the totalitarian mindset that undergirds speech codes, conduct codes, and "campus life" bureaucracies, through which a cadre of deans and counselors indoctrinate students and faculty in an ideology that favors group rights over individual rights, sacrificing free speech and academic freedom to spare the sensitivities of currently favored groups. From Maine to California, at public and private universities alike, liberty and fairness are the first casualties as teachers and students find themselves in the dock, presumed guilty until proven innocent and often forbidden to cross-examine their accusers. Kors and Silverglate introduce us to many of those who have firsthand experience of the shadow university, including: The student at the center of the 1993 "Water Buffalo" case at the University of Pennsylvania, who was brought up on charges of racial harassment after calling a group of rowdy students "water buffalo" -- even though the term has no racial connotations. The Catholic residence adviser who was fired for refusing, on grounds of religious conscience, to wear a symbol of gay and lesbian causes. The professor who was investigated for sexual harassment when he disagreed with campus feminists about curriculum issues. The student who was punished for laughing at a statement deemed offensive to others and who was ordered to undergo "sensitivity training" as a result. The Shadow University unmasks a chilling reality for parents who entrust their sons and daughters to the authority of such institutions, for thinking people who recognize that vigorous debate is the only sure path to truth, and for all Americans who realize that when even one citizen is deprived of liberty, we are all diminished.

Queering Criminology Nov 29 2019 Queer criminological work is at the forefront of critical academic criminology, responding to the exclusion of queer communities from criminology, and the injustices that they experience through the criminal justice system. This volume draws together both theoretical and empirical contributions that develop the growing scholarship being produced at the intersection of 'queer' and 'criminology'. Reflecting the diversity of research that is undertaken at this intersection, the contributions to this volume offer a deeper theoretical and conceptual development of this field alongside empirical research that illustrates the continued relevance and urgency of such scholarship. The contributions consider what it means to be queering criminology in the current political, social, and criminological climate, and chart directions along which this field might develop in order to ensure that greater social and criminal justice for LGBTIQ communities is achieved.

Religious Freedom and Gay Rights Jun 24 2019 In the United States and Europe, an increasing emphasis on equality has pitted rights claims against each other, raising profound philosophical, moral, legal, and political questions about the meaning and reach of religious liberty. Nowhere has this conflict been more salient than in the debate between claims of religious freedom, on one hand, and equal rights claims made on the behalf of members of the lesbian, gay, bisexual, and transgender (LGBT) community, on the other. As new rights for LGBT individuals have expanded in liberal democracies across the West, longstanding rights of religious freedom -- such as the rights of religious communities to adhere to their fundamental teachings, including protecting the rights of conscience; the rights of parents to impart their religious beliefs to their children; and the liberty to

advance religiously-based moral arguments as a rationale for laws -- have suffered a corresponding decline. Timothy Samuel Shah, Thomas F. Farr, and Jack Friedman's volume, *Religious Freedom and Gay Rights* brings together some of the world's leading thinkers on religion, morality, politics, and law to analyze the emerging tensions between religious freedom and gay rights in three key geographic regions: the United States, the United Kingdom, and continental Europe. What implications will expanding regimes of equality rights for LGBT individuals have on religious freedom in these regions? What are the legal and moral frameworks that govern tensions between gay rights and religious freedom? How are these tensions illustrated in particular legal, political, and policy controversies? And what is the proper way to balance new claims of equality against existing claims for freedom of religious groups and individuals? *Religious Freedom and Gay Rights* offers several explorations of these questions.

Cases, Materials and Text on National, Supranational and International Non-

Discrimination Law Nov 21 2021 This casebook, the result of the collaborative efforts of a panel of experts from various EU Member States, is the latest in the Ius Commune Casebook series developed at the Universities of Maastricht and Leuven. The book provides a comprehensive and skilfully designed resource for students, practitioners, researchers, public officials, NGOs, consumer organisations and the judiciary. In common with earlier books in the series, this casebook presents cases and other materials (legislative materials, international and European materials, excerpts from books or articles). As non-discrimination law is a comparatively new subject, the chapters search for and develop the concepts of discrimination law on the basis of a wide variety of young and often still emerging case law and legislation. The result is a comprehensive textbook with materials from a wide variety of EU Member States. The book is entirely in English (i.e. materials are translated where not available in English). At the end of each chapter a comparative overview ties the material together, with emphasis, where appropriate, on existing or emerging general principles in the legal systems within Europe. The book illustrates the distinct relationship between international, European and national legislation in the field of non-discrimination law. It covers the grounds of discrimination addressed in the Racial Equality and Employment Equality Directives, as well as non-discrimination law relating to gender. In so doing, it covers the law of a large number of EU Member States, alongside some international comparisons. The Ius Commune Casebook on Non-Discrimination Law - provides practitioners with ready access to primary and secondary legal material needed to assist them in crafting test case strategies. - provides the judiciary with the tools needed to respond sensitively to such cases. - provides material for teaching non-discrimination law to law and other students. - provides a basis for ongoing research on non-discrimination law. - provides an up-to-date overview of the implementation of the Directives and of the state of the law. This Casebook is the result of a project which has been supported by a grant from the European Commission's Anti-Discrimination Programme. See the detailed website for this book: www.casebooks.eu/nonDiscrimination/.
