The Moms' Guide to Meal Makeovers Jan 11 2021 For the legions of harried moms who have tossed in the dishtowel on cooking healthy meals (or any meals!), the easiest-ever guide for bringing super nutrition back to the kitchen. Getting dinner on the table night after night can be a challenge. So it's no surprise that busy moms often rely on fast food, takeout, and convenience meals like macaroni & cheese, chicken nuggets, and fries. The kids love it but the drawback is that little twinge of guilt moms feel every time they feed their family another not-so-healthy meal. At the end of the day, many children end up with a poor diet high in sugar, saturated fat, and calories ... a major factor in the rising rates of obesity. Finally, here are realistic guidelines designed to give families a healthy meal makeover. The Moms lay out a 5-Step Meal Makeover Plan, explaining how to market good nutrition to kids, establish food rules, and make life easier in the kitchen. In The Best of the Bunch chapter they reveal which brands of kid convenience foods—hot dogs, frozen pizza, and more—are the best tasting and most nutritious ones out there. The Moms show how to stock a healthy pantry and whip up delicious anytime meals using pantry staples. They even serve up 120 reworked recipes for family favorites such as Fast-as-Boxed Macaroni & Cheese, Squishy Squash Lasagna, Cheesy Broccoli Soup, Sweet Potato Fries, and Chocolate Pudding with Toppers.

Practical Handbook of Advanced Interventional Cardiology Aug 25 2019 Continued advances in cardiology have led to unprecedented scientific progress in recent years. However, no matter how advanced the science, the successful application of interventional cardiology relies upon a practitioner's ability to approach interventional techniques competently and confidently in every situation. Fully updated and featuring new chapters and additional tips and tricks, this latest edition of Dr Nguyen, Colombo, Hu, Grines, and Saito's celebrated book provides a complete yet concise guide to practical interventional cardiology that deserves a place in every cardiac laboratory. Culled from the personal experience of over fifty international experts, the book incorporates more than 500 practical tips and tricks for performing interventional cardiovascular procedures. Each strategic or tactical move is graded by complexity level and described in a simple, step-by-step approach that includes guidance on how to overcome practical difficulties, providing a comprehensive resource that can benefit both beginner or experienced operators. As well as covering the latest developments in interventional cardiology, this third edition includes technical tips that promote user-friendly performance, low complication rates, cost- and time-efficient approaches and cost- and time-effective selection of devices to help optimize the practice of modern interventional cardiology.

Informal Introduction to Stochastic Processes with Maple Feb 09 2021 The book presents an introduction to Stochastic Processes including Markov Chains, Birth and Death processes, Brownian motion and Autoregressive models. The emphasis is on simplifying both the underlying mathematics and the conceptual understanding of random processes. In particular, non-trivial computations are delegated to a computer-algebra system, specifically Maple (although other systems can be easily substituted). Moreover, great care is taken to properly introduce the required mathematical tools (such as difference equations and generating functions) so that even students with only a basic mathematical background will find the book self-contained. Many detailed examples are given throughout the text to facilitate and reinforce learning. Jan Vrbik has been a Professor of Mathematics and Statistics at Brock University in St Catharines, Ontario, Canada, since 1982. Paul Vrbik is currently a PhD candidate in Computer Science at the University of Western Ontario in London, Ontario,
