Hitler's War Aug 23 2019 A stroke of the pen and history is changed. In 1938, British prime minister Neville Chamberlain, determined to avoid war, signed the Munich Accord, ceding part of Czechoslovakia to Hitler. But the following spring, Hitler snatched the rest of that country, and England, after a fatal act of appeasement, was fighting a war for which it was not prepared. Now, in this thrilling alternate history, another scenario is played out: What if Chamberlain had not signed the accord? In this action-packed chronicle of the war that might have been, Harry Turtledove uses dozens of points of view to tell the story: from American marines serving in Japanese-occupied China and ragtag volunteers fighting in the Abraham Lincoln Battalion in Spain to an American woman desperately trying to escape Nazi-occupied territory—and witnessing the war from within the belly of the beast. A tale of powerful leaders and ordinary people, at once brilliantly imaginative and hugely entertaining, Hitler's War captures the beginning of a very different World War II—with a very different fate for our world today. **BONUS:** This edition contains an excerpt from Harry Turtledove's The War that Came Early: West and East.

Big Week Nov 06 2020 In just six days, the United States Strategic Air Forces changed the course of military offense in World War II. During those six days, they launched the largest bombing campaign of the war, dropping roughly ten thousand tons of bombs in a rain of destruction that would take the skies back from the Nazis . . . The Allies knew that if they were to invade Hitler's Fortress Europe, they would have to wrest air superiority from the mighty Luftwaffe. The plan of the United States Strategic Air Forces was extremely risky. During the week of February 20, 1944—and joined by the RAF Bomber Command—the USAAF Eighth and Fifteenth Air Force bombers took on this vital mission. They ran the gauntlet of the most heavily defended air space in the world to deal a death blow to Germany's aircraft industry and made them pay with the planes already in the air. In the coming months, this Big Week would prove a deciding factor in the war. Both sides were dealt losses, but whereas the Allies could recover, damage to the Luftwaffe was irreparable. Thus, Big Week became one of the most important episodes of World War II and, coincidentally, one of the most overlooked—until now.

Never Forget Jun 20 2019 Six moving World War II stories. Told by the people who lived them. New Zealand writer Jo Bailey has combined extensive interviews with the use of wartime diaries and written memoir to create six compelling, first person accounts of war. They include a boy who grew up in Japanese-occupied Dutch East Indies (Indonesia), a New Zealand soldier in the 2nd New Zealand Divisional Cavalry, a young girl whose father was a key figure in the Resistance in German-occupied Rotterdam, a navigator who flew with Churchill's top secret RAF squadron flying agents and equipment behind enemy lines, a boy who grew up in the wartime slums of Newcastle-upon-Tyne and was later sent to Australia as a child migrant, and six Polish orphans who miraculously survived the loss of their parents and terrible conditions in forced labour camps in Siberia and Uzbekistan before arriving in New Zealand as 'Pahiatua Children' evacuees.

The Grand Alliance Jun 01 2020 Dealing with war on a giant scale, THE GRAND ALLIANCE focuses on events as Britain, after fighting a desperate battle alone, was joined in the struggle against the enemy by Soviet Russia and the United States. Hitler's invasion of Russia brought to an end a period of almost exactly a year during which Britain and her Empire had stood alone. Six months later, the United States, attacked by Japan, joined the war and the Grand Alliance was born. It was a momentous turn in the course of the war and Sir Winston Churchill noted, 'United we could subdue everybody else in the world. Many disasters, immeasurable cost and tribulation lay ahead, but there was no more doubt about the end.'

A Higher Form of Killing Jan 20 2022 In six weeks during April and May 1915, as World War I escalated, Germany forever altered the way war would be fought. On April 22, at Ypres, German canisters spewed poison gas at French and Canadian soldiers in their trenches; on May 7, the German submarine U-20, without warning, torpedoed the passenger liner Lusitania, killing 1,198 civilians; and on May 31, a German Zeppelin began the first aerial bombardment of London and its inhabitants. Each of these actions violated rules of war carefully agreed at the Hague Conventions of 1898 and 1907. Though Germany's attempts to quickly win the war failed, the psychological damage caused by these attacks far outweighed the casualties. The era of weapons of mass destruction had dawned. While each of these momentous events has been chronicled in histories of the war, celebrated historian Diana Preston links them for the first time, revealing the dramatic stories behind each through the eyes of those who were there, whether making the decisions or experiencing their effect. She places the attacks in the context of the centuries-old debate over what constitutes "just war," and shows how, in their aftermath, the other combatants felt the necessity to develop extreme weapons of their own. In our current time of terror, when weapons of mass destruction-imagined or real-are once again vilified, the story of their birth is of great relevance.

World War II Sea War, Vol 6: The Allies Halt the Axis Advance Aug 15 2021 Major Pacific actions from April through August 1942 include the Japanese attack on Ceylon, the Doolittle Raid on Japan, the battle of the Coral Sea, the battle of Midway Island, the U.S. landing on Guadalcanal, the battle of Savo Island, and the battle of the eastern Solomon Islands. Arctic actions include battle for convoy PQ.17. In Mediterranean, the Royal Navy interdicts Axis supply lines along Libyan and Egyptian coasts. In the Atlantic, the U.S. implements convoys along the East Coast.

To Serve My Country, to Serve My Race Jan 08 2021 I would have climbed up a mountain to get on the list [to serve overseas]. We were going to do our duty. Despite all the bad things that happened, America was our home. This is where I was born. It was where my mother and father were. There was a feeling of wanting to do your part. --Gladys Carter, member of the 6888th Central Postal Directory. To Serve My Country, to Serve my Race is the story of the historic 6888th, the first United States Women's Army Corps unit composed of African-American women to serve overseas. While African-American men and white women were

invited, if belatedly, to serve their country abroad, African-American women were excluded for overseas duty throughout most of WWII. Under political pressure from legislators like Adam Clayton Powell, Jr., the NAACP, the black press, and even President Roosevelt, the U.S. War Department was forced to deploy African-American women to the European theater in 1945. African-American women, having succeeded, through their own activism and political ties, in their quest to shape their own lives, answered the call from all over the country, from every socioeconomic stratum. Stationed in France and England at the end of World War II, the 6888th brought together women like Mary Daniel Williams, a cook in the 6888th who signed up for the Army to escape the slums of Cleveland and to improve her ninth-grade education, and Margaret Barnes Jones, a public relations officer of the 6888th, who grew up in a comfortable household with a politically active mother who encouraged her to challenge the system. Despite the social, political, and economic restrictions imposed upon these African-American women in their own country, they were eager to serve, not only out of patriotism but out of a desire to uplift their race and dispell bigoted preconceptions about their abilities. Elaine Bennett, a First Sergeant in the 6888th, joined because "I wanted to prove to myself and maybe to the world that we would give what we had back to the United States as a confirmation that we were full-fledged citizens." Filled with compelling personal testimony based on extensive interviews, *To Serve My Country* is the first book to document the lives of these courageous pioneers. It reveals how their Army experience affected them for the rest of their lives and how they, in turn, transformed the U.S. military forever.

The Economics of World War II Jul 26 2022 This book provides a new quantitative view of the wartime economic experiences of six great powers; the UK, the USA, Germany, Italy, Japan and the USSR. What contribution did economics make to war preparedness and to winning or losing the war? What was the effect of wartime experiences on postwar fortunes, and did those who won the war lose the peace? A chapter is devoted to each country, reviewing its economic war potential, military-economic policies and performance, war expenditures and development, while the introductory chapter presents a comparative overview. The result of an international collaborative project, the volume aims to provide a text of statistical reference for students and researchers interested in international and comparative economic history, the history of World War II, the history of economic policy, and comparative economic systems. It embodies the latest in economic analysis and historical research.

World War I Oct 05 2020 A lively, engaging history of The Great War written for a new generation of readers In recent years, scholarship on World War I has turned from a fairly narrow focus on military tactics, weaponry, and diplomacy to incorporate considerations of empire, globalism, and social and cultural history. This concise history of the first modern, global war helps to further broaden the focus typically provided in World War I surveys by challenging popular myths and stereotypes to provide a new, engaging account of The Great War. The conventional World War I narrative that has evolved over the past century is that of an inevitable but useless war, where men were needlessly slaughtered due to poor decisions by hidebound officers. This characterization developed out of a narrow focus on the Western Front promulgated mainly by British historians. In this book, Professor Proctor provides a broader, more multifaceted historical narrative including perspectives from other fronts and spheres of interest and a wider range of participants. She also draws on recent scholarship to consider the gendered aspect of war and the ways in which social class, religion, and cultural factors shaped experiences and memories of the war. Structured chronologically to help convey a sense of how the conflict evolved Each chapter considers a key interpretive question, encouraging readers to examine the extent to which the war was total, modern, and global Challenges outdated stereotypes created through a focus on the Western Front Considers the war in light of recent scholarship on empire, global history, gender, and culture Explores ways in which the war and the terms of peace shaped the course of the 20th century *World War I: A Short History* is sure to become required reading in undergraduate survey courses on WWI, as well as courses in military history, the 20th century world, or the era of the World Wars.

When the online storytelling magazine SMITH asked readers to submit six-word memoirs, they proved a whole, real life can be told this way too. The results are fascinating, hilarious, shocking, and moving. From small sagas of bittersweet romance ("Found true love, married someone else") to proud achievements and stinging regrets ("After Harvard, had baby with crackhead"), these terse true tales relate the diversity of human experience in tasty bite-sized pieces. From authors Jonathan Lethem and Richard Ford to comedians Stephen Colbert and Amy Sedaris, to ordinary folks around the world, everyone has a six-word story to tell.

Space Wars Apr 23 2022 Michael J. Coumatos is a former U.S. Navy test pilot, ship's captain, and commodore; U.S. Space Command director of wargaming; and a government counterterrorism advisor. William Scott is a retired bureau chief of Aviation Week and Space Technology and a nine-year Air force veteran who served as aircrew on nuclear sampling missions. He is a six-time Royal Aeronautical Society "Journalist of the Year" finalist, and won the Society's 1998 Lockheed Martin Award for the "Best Defense Submission." He also received both the 2006 and 2007 Messier-Dowty awards for "Best Airshow Submission." With the help of New York Times bestselling author William J. Birnes, these renowned experts have joined forces to grippingly depict how the first hours of World War III might play out in the year 2010. Coumatos, Scott, and Birnes take the reader inside U.S. Strategic Command, where top military commanders, space-company executives, and U.S. intelligence experts are conducting a DEADSATS II wargame, exploring how the loss of critical satellites could lead to nuclear war. The players don't know that the war they are gaming has already begun, miles above them in the lifeless, silent cold of space. Jam-packed with the actual systems and secret technologies the United States has or will soon field to protect its space assets, *Space Wars* describes a near-future nuclear nightmare that terrorists will relish but politicians prefer to ignore. In a quieter, more peaceful time, *Space Wars* would be an exciting work of fiction. But with the United States now at war, *Space Wars* is all too real. . The Last Lion Box Set May 12 2021 Universally acclaimed for their compelling narrative, their fresh insights, and their objective renderings of Winston Churchill's life, *The Last Lion* trilogy presents a revelatory and unparalleled portrait of his brilliant, flawed, and dynamic adventurer, aristocrat, soldier, and statesman. Born at the end of the 19th century when Imperial Britain still stood at the splendid pinnacle of her power, Churchill would witness the shift a few years later as the Empire hovered on the brink of a catastrophic new era. One of the greatest wartime leaders of our time, he would go on to stand alone, politically isolated in Parliament, as he took the lead in warning of the growing Nazi threat, and would lead Britain to victory against Nazi Germany and the Axis powers in World War II. Now, celebrated historian William Manchester's landmark biographies are collected together for the first time, along with the eagerly anticipated final installment Churchill's last years in power. More than thirty years in the making, *The Last Lion* is the definitive work on this remarkable man whose courageous vision guided the destiny of a nation during darkly troubled times-and who looms as one of the greatest figures of our century.

From World War to Cold War Feb 27 2020 The 1940s was probably the most dramatic and decisive decade of the 20th century. This volume explores the Second World War and the origins of the Cold War from the vantage point of two of the great powers of that era, Britain and the USA, and of their wartime leaders, Churchill and Roosevelt. It also looks at their chequered relations with Stalin and at how the Grand Alliance crumbled into an undesired Cold War. But this is not simply a story of top-level diplomacy. David Reynolds explores the social and cultural implications of the wartime Anglo-American alliance, particularly the impact of nearly three million GIs on British life, and reflects more generally on the importance of cultural issues in the study of international history. This book persistently challenges popular stereotypes - for instance on Churchill in 1940 or his Iron Curtain speech. It probes clichés such as 'the special relationship' and even 'the Second World War'. And it offers new views of the familiar, such as the Fall of France in 1940 or Franklin Roosevelt as 'the wheelchair president'. Incisive and readable, written by a leading international historian, these essays encourage us to rethink our understanding of this momentous period in world history.

World War Two at Sea Jan 28 2020 The big-gun battleship served as a symbol of the ultimate power of the world's greatest navies beginning late in the nineteenth century and continuing into the Second World War. So historically important was this vessel that the arms race between Britain and Germany to build navies with larger, more powerful battleships was among the key sources of tension between those nations in the lead up to the First World War. In this book, veteran battleship crew members describe their unforgettable experiences, including those of a young officer in a British battleship at Jutland; tales of the loss of the German warship *Scharnhorst* in the arctic off the North Cape; the combat experience inside a sixteen-inch gun turret aboard an Iowa-class battleship bombarding Iraq during the Gulf War, and the adventures of HMS *Warspite* in World War One, in the Mediterranean and on her way to the breaker's yard in 1947. Included too is the story of the great German battleship *Bismarck*, which sank the pride of the British fleet, the story of HMS *Hood*, and that of the USS *Missouri* on whose deck the final surrender document of the Second World War was signed. The text is combined with a compelling selection of historic images representing the era of the great battleships from the early years through the First and Second World Wars, Korea, Vietnam, the Gulf War, and the preservation of a handful of these vessels as museum pieces today.

Six Weeks Sep 28 2022 "Often fresh out of school, still with their recent Latin lessons fresh in their minds, many junior officers in the First World War went straight from being prefects to having to lead their men in a charge over the top, knowing that the German machine guns would be trained on the man at the front, knowing that so many of their predecessors had fallen before them. In this remarkable book, John Lewis-Stempel focuses on the oft-overlooked men who were crucial to Britain's war effort, the men who had to persuade the ordinary Tommy to follow them into action. Basing his account on a huge range of first person accounts, including poignant letters and diaries sent home or back to their school, Lewis-Stempel reveals what motivated these men who faced an average life expectancy of just six weeks once they reached the frontline. He shows the life they led in the trenches, how they sought to keep up the spirits of their men, and how they tried to behave with honour in a world where their codes of conduct were being quite literally shot to pieces."--Publisher's description.

The Best Advice in Six Words Mar 30 2020 In 2006 Larry Smith, the creator of SMITH Magazine, challenged readers to tell

their story in just six words. Modeled after a famous quote by Ernest Hemingway, Smith showed the world that short-form storytelling could be powerful. Since the publication of the first book in his bestselling series, *Not Quite What I Was Planning*, people all over the world have shared their stories in print, online, in the classroom, and with their friends and families. Bolstered by the success of the memoir form, Larry Smith is back again with a poignant collection of universal wisdom, life lessons, and caution thrown to the wind that will put a smile on your face six words at a time. With contributions from celebrities like Molly Ringwald, "post-adolescent? Then stop blaming your parents;" Lemony Snicket, "never, ever refuse a breath mint;" and Gary Shteyngart, "hands where I can see 'em," as well as everyday people who've learned a thing or two about a thing or two during their time on the planet, readers will be pulled into the sometimes hilarious, often serious, occasionally reflective experience of the book. [D-Day](#) Jul 14 2021 Stephen E. Ambrose's *D-Day* is the definitive history of World War II's most pivotal battle, a day that changed the course of history. *D-Day* is the epic story of men at the most demanding moment of their lives, when the horrors, complexities, and triumphs of life are laid bare. Distinguished historian Stephen E. Ambrose portrays the faces of courage and heroism, fear and determination—what Eisenhower called “the fury of an aroused democracy”—that shaped the victory of the citizen soldiers whom Hitler had disparaged. Drawing on more than 1,400 interviews with American, British, Canadian, French, and German veterans, Ambrose reveals how the original plans for the invasion had to be abandoned, and how enlisted men and junior officers acted on their own initiative when they realized that nothing was as they were told it would be. The action begins at midnight, June 5/6, when the first British and American airborne troops jumped into France. It ends at midnight June 6/7. Focusing on those pivotal twenty-four hours, it moves from the level of Supreme Commander to that of a French child, from General Omar Bradley to an American paratrooper, from Field Marshal Montgomery to a German sergeant. Ambrose's *D-Day* is the finest account of one of our history's most important days.

PERPETRATORS "World War II: Six Years That Changed World History," a short history of the most violent conflict in human history, is more than a regular overview. Rather than trying to cover every major event of the Second World War, it alternates between telling the general story and zooming in on specific, game-changing events, the reasons behind key decisions and the thinking of leaders, commanders and perpetrators. Some of the major battles discussed: The Battle of Britain Operation Barbarossa The Battle of Stalingrad The Attack on Pearl Harbor Apart from the war in Europe and the war in the Pacific, the Holocaust and the building of the atom bomb are also more extensively covered. How and why the Nazi persecution of the Jews went from isolation, oppression and emigration, to concentration and finally extermination is told by looking at: Nazi ideology Nazi laws The attitude of other countries in the 1930s Quotes from books, memos and remarks by some of the main perpetrators, such as Adolf Hitler, Reichsmarschall Hermann Goring, Auschwitz Commandant Rudolf Hoss and SS-Gruppenfuhrer Reinhard Heydrich, who ran the Einsatzgruppen, a.k.a. SS death-squads. The creation of the atom bomb follows the path from the discovery of nuclear fission to the early British research to develop a nuclear weapon, code-named Tube Alloys, the American Manhattan Project and finally the decision to drop the bomb on the Japanese cities of Hiroshima and Nagasaki in August 1945. "World War II: Six Years That Changed World History is a well-sourced, gripping and at times chilling overview of a war that forever changed who we are and how we view ourselves. [The Western Allies and Soviet Potential in World War II](#) Sep 23 2019 World War II was the largest and most devastating war in modern history with far-reaching consequences. The single most important campaign was the Soviet-German war, which consumed the lion share of Germany's military resources. In contrast to the tone in German and Anglo-American precampaign assessments, the USSR was able to repulse the invasion after huge losses and turn the table on Germany and her minor Axis allies. This book examines how the two most important Western Allies in World War II, the United States and the United Kingdom, assessed the economic and military potential of the Soviet Union in 1939-1945. Since the USSR was the single most important military contributor to the Allied victory in Europe, and the main target of Germany's military strength, these assessments are of paramount importance in order to understand how the Anglo-Americans perceived the overall war situation and adjusted their own war effort in accordance with it. Utilising a wide range of documents produced by the Anglo-Americans during and shortly before World War II, this book explores why Soviet strength was underestimated, and how the Soviet economic system, Soviet society and military capabilities were viewed by Western Government observers. *The Western Allies and Soviet Potential in World War II* is a fascinating read for those in academia studying economic history, international economics and security studies, especially areas on military and strategic.

[June 6, 1944](#) Sep 04 2020 In ships and planes, they crossed the English Channel. On the other side Hitler's army waited. And the longest day was about to begin.... In the spring of 1944, 120,000 Allied soldiers crossed the English Channel in the most ambitious invasion force ever assembled. Rangers, paratroopers, infantry, and armored personnel, these soldiers--some who

had just cut their teeth in Africa and Sicily and some who were brand-new to war--joined a force aimed at the heart of Europe and Hitler's defenses. On the morning of June 6, D-Day began. And in the hours that followed, thousands lost their lives, while those who survived would be changed forever. No other chronicle of D-Day can match Gerald Astor's extraordinary work--a vivid first-person account told with stunning immediacy by the men who were there. From soldiers who waded through the bullet-riddled water to those who dropped behind enemy lines, from moments of terror and confusion to acts of incredible camaraderie and heroism, June 6, 1944 plunges us into history in the making--and the most pivotal battle ever waged.

"Thrilling from the first page to the last." --Mary Gabriel, author of *Ninth Street Women* "Just as women are so often written out of war, so it seems are the female correspondents. Mackrell corrects this omission admirably with stories of six of the best--Mackrell has done us all a great service by assembling their own fascinating stories." --*New York Times Book Review* On the front lines of the Second World War, a contingent of female journalists were bravely waging their own battle. Barred from combat zones and faced with entrenched prejudice and bureaucratic restrictions, these women were forced to fight for the right to work on equal terms with men. *The Correspondents* follows six remarkable women as their lives and careers intertwined: Martha Gellhorn, who got the scoop on Ernest Hemingway on D-Day by traveling to Normandy as a stowaway on a Red Cross ship; Lee Miller, who went from being a Vogue cover model to the magazine's official war correspondent; Sigrid Schultz, who hid her Jewish identity and risked her life by reporting on the Nazi regime; Virginia Cowles, a "society girl columnist" turned combat reporter; Clare Hollingworth, the first English journalist to break the news of World War II; and Helen Kirkpatrick, the first woman to report from an Allied war zone with equal privileges to men. From chasing down sources and narrowly dodging gunfire to conducting tumultuous love affairs and socializing with luminaries like Eleanor Roosevelt, Picasso, and Man Ray, these six women are captured in all their complexity. With her gripping, intimate, and nuanced portrait, Judith Mackrell celebrates these courageous reporters who risked their lives for the scoop.
