Ancient Libraries Apr 02 2020 The circulation of books was the motor of classical civilization. But books were both expensive and rare, and so libraries - private and public, royal and civic - played key roles in articulating intellectual life. This collection, written by an international team of scholars, presents a fundamental reassessment of how ancient libraries came into being, how they were organized and how they were used. Drawing on papyrology and archaeology, and on accounts written by those who read and wrote in them, it presents new research on reading cultures, on book collecting and on the origins of monumental library buildings. Many of the traditional stories told about ancient libraries are challenged. Few were really enormous, none were designed as research centres, and occasional conflagrations do not explain the loss of most ancient texts. But the central place of libraries in Greco-Roman culture emerges more clearly than ever.

My Buddy. World War II Laid Bare Jul 06 2020 From the Michael Stokes Collection, this extraordinary publication reveals a side of World War II never before made public: young Allied troops discharging tension in boisterous, naked play and intimate "buddy" friendships. A remarkable, often tender, lineup of personal photographs and vintage military ephemera, these images offer a whole new perspective on masculinity and the wartime relations between men. Every harrowing day for a serviceman during World War II was potentially his last. To help bolster troops against the horrors of combat, commanders encouraged them to form tight "buddy" relationships for emotional support. Many war buddies, together every moment, and depending on each other to survive, formed intimate friendships. When they weren't fighting side by side, they

relaxed together, discharging tension in boisterous--sometimes naked--play. The full extent of nude horseplay among men during World War II can't be known, as cameras were rare and film hard to process, but some men did document this unprecedented male bonding in small, anonymous photos mostly kept hidden away until their deaths. Los Angeles photographer Michael Stokes has spent years searching out these photos and building an archive of over 500 images. His collection includes soldiers and sailors from Australia, England, France, Italy, Poland, Russia, and the USA, cavorting on the sand in the South Pacific, shivering in the snow of Eastern Europe, posing solo in the barracks, and in great happy groups just about everywhere. These images show men barely out of boyhood, at their physical peak, responding to the reality of battle by living each day to the fullest--a side of the war never before made public. The introduction is by Scotty Bowers, an 89-year-old ex-Marine and author of *Full Service*, the best-selling memoir of his sexual exploits in Hollywood, and how the war forever altered his attitudes about gay and straight, just as these photos may alter our attitudes about World War II and war buddies.
