About a Boy Jan 29 2020 A wise, hilarious novel from the beloved, award-winning author of *Funny Girl*, *High Fidelity* and *A Long Way Down*. Will Freeman may have discovered the key to dating success: If the simple fact that they were single mothers meant that gorgeous women – women who would not ordinarily look twice at Will – might not only be willing, but enthusiastic about dating him, then he was really onto something. Single mothers – bright, attractive, available women – thousands of them, were all over London. He just had to find them. SPAT: Single Parents – Alone Together. It was a brilliant plan. And Will wasn't going to let the fact that he didn't have a child himself hold him back. A fictional two-year-old named Ned wouldn't be the first thing he'd invented. And it seems to go quite well at first, until he meets an actual twelve-year-old named Marcus, who is more than Will bargained for...

14 Fun Facts About the Galilean Moons of Jupiter: A 15-Minute Book Mar 13 2021 On January 7, 1610, Italian astronomer Galileo Galilei turned his newly developed telescope to Jupiter. He discovered four objects orbiting the giant planet. It took him another night's observations to clearly distinguish between two of them. He called them "The Medicean planets", after the Medici family (who ruled Italy at the time), and gave them numbers. German astronomer Simon Marius also claimed to have seen these objects at about the same time. He never published any documentation, and the credit was given to Galileo. It was nearly 250 years later before they were given names. They are now known as the Galilean moons, Io, Europa, Ganymede and Callisto. They were created at the same time as Jupiter and contain 99.999 percent of all the mass in orbit around Jupiter. How much do you know about these moons? What would Ganymede be called if it did not orbit Jupiter? What is the most volcanic place in our solar system? Why does Europa have spots? Which moon is a good candidate for containing life? One Good Thing About America Sep 06 2020 It's always hard to start at a new school . . . and even harder if you're in a new country. Back home, nine-year-old Anaïs was the best English student in her class, but here in Crazy America it feels like she doesn't know English at all. Nothing makes sense (chicken fingers?), and the kids at school have some very strange ideas about Africa. Anaïs misses home. She misses their little house under the mango trees, and the family left behind--Papa and grandmother Oma and big brother Olivier. She worries about the fighting that drove her and Mama and little Jean-Claude to leave. So she writes letters to Oma and tells her about Halloween, snow, mac 'n' cheese dinners, and princess sleepovers. She tells her all about the weird things Crazy Americans do, and how she just might be turning into a Crazy American herself. Inspired by the author's work with students learning English, this sweet, often funny middle-grade novel explores differences and common ground across cultures. In contrast to a growing climate of fear and doubt, this story of a refugee child navigating her new life restores hope and reminds us that America is, in fact, a nation of immigrants where we must accept our differences in order to survive--and that's one very good thing.

100 Amazing Facts About the Negro Jul 29 2022 The first edition of Joel Augustus Rogers's now legendary 100 Amazing Facts About the Negro with Complete Proof, published in 1934, was billed as "A Negro 'Believe It or Not.'" Rogers's little book was priceless because he was delivering enlightenment and pride, steeped in historical research, to a people too long starved on the lie that they were worth nothing. For African Americans of the Jim Crow era, Rogers's was their first black history teacher. But Rogers was not always shy about embellishing the "facts" and minimizing ambiguity; neither was he above shock journalism now and then. With élan and erudition—and with winning enthusiasm—Henry Louis Gates, Jr. gives us a corrective yet loving homage to Roger's work. Relying on the latest scholarship, Gates leads us on a romp through African, diasporic, and African-American history in question-and-answer format. Among the one hundred questions: Who were Africa's first ambassadors to Europe? Who was the first black president in North America? Did Lincoln really free the slaves? Who was history's wealthiest person? What percentage of white Americans have recent African ancestry? Why did free black people living in the South before the end of the Civil War stay there? Who was the first black head of state in modern Western history? Where was the first Underground Railroad? Who was the first black American woman to be a self-made millionaire? Which black man made many of our favorite household products better? Here is a surprising, inspiring, sometimes boldly mischievous—all the while highly instructive and entertaining—compendium of historical curiosities intended to illuminate the sheer complexity and diversity of being "Negro" in the world. (With full-color illustrations throughout.)

Factfulness Jan 11 2021 **INSTANT NEW YORK TIMES BESTSELLER** "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." — Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

Furiously Happy Dec 10 2020 "Jenny made me laugh so hard I feared for my safety! I think that's how she was able to get past my defenses and make me feel more okay about myself." -Allie Brosh, author of *Hyperbole and a Half* For fans of David Sedaris, Tina Fey, and Mindy Kaling-the new book from Jenny Lawson, author of the #1 New York Times bestseller *LET'S PRETEND THIS NEVER HAPPENED*... In *LET'S PRETEND THIS NEVER HAPPENED*, Jenny Lawson baffled readers with stories about growing up the daughter of a taxidermist. In her new book, *FURIOUSLY HAPPY*, Jenny explores her lifelong battle with mental illness. A hysterical, ridiculous book about crippling depression and anxiety? That sounds like a terrible idea. And terrible ideas are what Jenny does best. According to Jenny: "Some people might think that being 'furiously happy' is just an excuse to be stupid and irresponsible and invite a herd of kangaroos over to your house without telling your husband first because you suspect he would say no since he's never particularly liked kangaroos. And that would be ridiculous because no one would invite a herd of kangaroos into their house. Two is the limit. I speak from personal experience. My husband says that none is the new limit. I say he should have been clearer about that before I rented all those kangaroos." "Most of my favorite people are dangerously fucked-up but you'd never guess because we've learned to bare it so honestly that it becomes the new normal. Like John Hughes wrote in *The Breakfast Club*, 'We're all pretty bizarre. Some of

us are just better at hiding it.' Except go back and cross out the word 'hiding.'" Jenny's first book, LET'S PRETEND THIS NEVER HAPPENED, was ostensibly about family, but deep down it was about celebrating your own weirdness. FURIOUSLY HAPPY is a book about mental illness, but under the surface it's about embracing joy in fantastic and outrageous ways-and who doesn't need a bit more of that?

The Facts of My Life Apr 13 2021 "It's about time a book came out about one of the most talented and beloved performers in the American theater. Charlotte is the consummate actress, comedienne, entertainer. Her work on stage and screen is always hilarious and somehow also gets you right in the gut. Her story is every bit as brilliant. Read it and smile." -Comedy Legend, Carl Reiner "To think of Charlotte Rae is to smile. Consequently, when I began to read "The Facts of My Life," I was unprepared for the emotional impact it would have on me. By the time I finished the first chapter, dealing as it does with her severely troubled son Andy, I was in tears. "As an old friend of Charlotte's, I thought I knew her fairly well. But as I read on, I discovered that the 'facts of her life' were constantly surprising (as well as amusing and engrossing)! There is so much that I don't know about Charlotte and so much that I now want to know, when the book is finally completed and published, I'll be first in line to get my copy!" -Sheldon Harnick (Composer, Fiddler on the Roof) Charlotte Rae's career spans more than seventy years, from the golden age of television to Shakespeare in the Park, the New York Cabaret scene of the late 1940's and 50's to her hit series, The Facts of Life and well beyond. Off stage and screen, Charlotte's life has been one of joy and challenge, raising an autistic son, coming to terms with alcoholism, the heartache of a broken marriage, the revelation of a gay husband and the sudden challenge of facing middle-age with financial and emotional uncertainties-an crisis she ultimately turned into the determination that brought her stardom. The Facts of My Life is the first opportunity for Charlotte fans to explore the fascinating story of her extraordinary life: poignant and hilarious, a story of courage and triumph, one that speaks for a generation of women breaking barriers, taking on challenges, overcoming personal tragedy, and paving the way for others.

Armed with his favorite getting-to-know-you question ("What's your favorite color?"), he'll weed out the incompatible people—the greens and the purples, people who are too close to his own blue to make for good friends—and surround himself with outgoing yellows, adventurous oranges, and even thrilling reds. But first things first: he needs to find a new nurse, stat, so that his mom doesn't have to keep accompanying him to school. Enter Miranda, a young nursing student who graduated from Harris's new high school. Not One Single Thing Nov 28 2019 Explore the seminal Platform Sutra, with one of the greatest living Zen masters as a guide. A lodestone of Zen Buddhism, the Platform Sutra presents the life, work, and wisdom of Eno, or Huineng, the fascinating and much-loved seventh-century Sixth Patriarch of Chinese Zen. He was an illiterate woodcutter who famously attained enlightenment after only hearing a single line of the Diamond Sutra, and who went on to decisively upstage senior monks with a poem that demonstrated the depth and clarity of his insight. His example has demonstrated to generations of students and spiritual seekers worldwide that enlightenment is attainable regardless of education or social standing. His exhortations to directly perceive one's true nature, right here and now, still reverberate in contemporary Zen. Shodo Harada Roshi's fresh reading of the Platform Sutra offers both the history behind the work and the lived experience of its wisdom. In a plain-English, conversational voice, Shodo Harada brings the sutra to life for his students, discussing and explaining its central points chapter by chapter and illustrating it with his own beautiful calligraphy. This is an essential Buddhist text brought to life.
