At the Mountains of Madness Dec 12 2020 *At the Mountains of Madness*, Lovecraft's incontrovertible masterpiece, written in February-March 1931, is a story details the events of a disastrous expedition to the barren, windswept Antarctic continent, where the secret history of our planet is preserved, amidst the ruins of its first civilization, in September 1930, and what was found there by a group of explorers led by the narrator, Dr. William Dyer of Miskatonic University. Throughout the story, Dyer details a series of previously untold events in the hope of deterring another group of explorers who wish to return to the continent. It uncovers strange fossils and mind-blowing terror. Since it was originally serialized in the February, March, and April 1936 issues of *Astounding Stories* during the classic pulp era, 'At the Mountains of Madness' has influenced both horror and science fiction worldwide. Lovecraft scholar S.T. Joshi describes the novella as representing the decisive "demythology" of the Cthulhu Mythos by reinterpreting Lovecraft's earlier supernatural stories in a science fiction paradigm.

Mountains and Plains Nov 30 2019 Many changessome discouraging, others hopefulhave occurred in the Rocky Mountain region since the first edition of this widely acclaimed book was published. Wildlife habitat has become more fragmented, once-abundant sage grouse are now scarce, and forest fires occur more frequently. At the same time, wolves have been successfully reintroduced, and new approaches to conservation have been adopted. For this updated and expanded Second Edition, the authors provide a highly readable synthesis of research undertaken in the past two decades and address two important questions: How can ecosystems be used so that future generations benefit from them as we have? How can we anticipate and adapt to climate changes while conserving biological diversity?

The Taste of Many Mountains Nov 03 2022 The global coffee trade is a collision between the rich world and the poor world. A group of graduate students is about to experience that collision head-on. Angela, Alex, Rich, and Sofi a bring to their summer research project in Guatemala more than their share of grad-school baggage—along with clashing ideas about poverty and globalization. But as they follow the trail of coffee beans from the Guatemalan peasant grower to the American coffee drinker, what unfolds is not only a stunning research discovery, but an unforgettable journey of personal challenge and growth. Based on an actual research project on fair trade coffee funded by USAID, *The Taste of Many Mountains* is a brilliantly-staged novel about the global economy in which University of San Francisco economist Bruce Wydick examines the realities of the coffee trade from the perspective of young researchers struggling to understand the chasm between the world's rich and poor. "Wydick's first novel is brewed perfectly—full of rich body with double-shots of insight." —Santiago "Jimmy" Mellado, President and CEO of Compassion International "This wonderfully enlightening book describes the Mayan culture in Guatemala and some of the sufferings these people have survived." —CBA Retailers + Resources Includes Reading Group Guide

Voices from the Mountains Sep 01 2022 A rich mosaic of photographs, words, and songs, *Voices from the Mountains* tells the turbulent story of the Appalachian South in the twentieth century. Focusing on the abuses of the coal industry and the grassroots struggle against mine owners that began in the 1960s, Guy and Candie Carawan have gathered quotations from a variety of sources; words and music to more fully ballads and songs, laments and satires, hymns and protests; and more than one hundred and fifty photographs of longtime Appalachian residents, their homes, their countryside, the mines they work in, and the labor battles they have fought. The "voices" that speak out in these pages range from the mountain people themselves to such well-known artists as Jean Ritchie, Hazel Dickens, Harriet Simpson Arnow, and Wendell Berry. Together they tell of the damage wrought by strip mining and the empty promises of land reclamation; the search for work and a new life in the North; the welfare rights, labor, anti-poverty, and black lung movements; early days in the mines; disasters and negligence in the coal industry; and protest and change in the coal fields. Dignity and despair, poverty and perseverance, tradition and change—*Voices from the Mountains* eloquently conveys the complex panorama of modern Appalachian life.

The High Mountains of Portugal Apr 03 2020 NEW YORK TIMES BESTSELLER • "Fifteen years after *The Life of Pi*, Yann Martel is taking us on another long journey. Fans of his Man Booker Prize-winning novel will recognize familiar themes from that seafaring phenomenon, but the itinerary in this imaginative new book is entirely fresh. . . . Martel's writing has never been more charming."—Ron Charles, *The Washington Post* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR In Lisbon in 1904, a young man named Tomás discovers an old journal. It hints at the existence of an extraordinary artifact that—if he can find it—would redefine history. Traveling in one of Europe's earliest automobiles, he sets out in search of this strange treasure. Thirty-five years later, a Portuguese pathologist devoted to the murder mysteries of Agatha Christie finds himself at the center of a mystery of his own and drawn into the consequences of Tomás's quest. Fifty years on, a Canadian senator takes refuge in his ancestral village in northern Portugal, grieving the loss of his beloved wife. But he arrives with an unusual companion: a chimpanzee. And there the century-old quest will come to an unexpected conclusion. *The High Mountains of Portugal*—part quest, part ghost story, part contemporary fable—offers a haunting exploration of great love and great loss. Filled with tenderness, humor, and endless surprise, it takes the reader on a road trip through Portugal in the last century—and through the human soul. Praise for *The High Mountains of Portugal* "Just as ambitious, just as clever, just as existential and spiritual [as *Life of Pi*] . . . a book that rewards your attention . . . an excellent book club choice."—*San Francisco Chronicle* "There's no denying the simple pleasures to be had in *The High Mountains of Portugal*."—*Chicago Tribune* "Charming . . . Most Martellian is the boundless capacity for parable. . . . Martel knows his strengths: passages about the chimpanzee and his owner brim irresistibly with affection and attentiveness."—*The New Yorker* "A rich and rewarding experience. . . [Martel] spins his magic thread of hope and despair, comedy and pathos."—USA Today "I took away indelible images from *High Mountains*, enchanting and disturbing at the same time. . . . As whimsical as Martel's magic realism can be, grief informs every step of the book's three journeys. In the course of the novel we burrow ever further into the heart of an ape, pure and threatening at once, our precursor, ourselves."—NPR "Refreshing, surprising and filled with sparkling moments of humor and insight."—*The Dallas Morning News* "We're fortunate to have brilliant writers using their fiction to meditate on a paradox we need urgently to consider—the unbridgeable gap and the unbreakable bond between human and animal, our impossible self-alienation from our world."—Ursula K. Le Guin, *The Guardian* "[Martel packs] his inventive novel with beguiling ideas. What connects an inept curator to a haunted pathologist to a smitten politician across more than seventy-five years is the author's ability to conjure up something uncanny at the end."—*The Boston Globe* "A fine home, and story, in which to find oneself."—*Minneapolis Star Tribune*

The Moth and the Mountain Apr 15 2021 "In the 1930s, as official government expeditions set their sights on conquering Mount Everest, a little-known World War I veteran named Maurice Wilson conceives his own crazy, beautiful plan: he will fly a plane from England to Everest, crash-land on its lower slopes, then become the first person to reach its summit—all utterly alone. Wilson doesn't know how to climb. He barely knows how to fly. But he has the right plane, the right equipment, and a deep yearning to achieve his goal. In 1933, he takes off from London in a Gipsy Moth biplane with his course set for the highest mountain on earth. Wilson's eleven-month journey to Everest is wild: full of twists, turns, and daring. Eventually, in disguise, he sneaks into Tibet. His icy ordeal is just beginning."—Provided by publisher.

Across Many Mountains Oct 02 2022 A powerful, emotional memoir and an extraordinary portrait of three generations of Tibetan women whose lives are forever changed when Chairman Mao's Red Army crushes Tibetan independence, sending a young mother and her six-year-old daughter on a treacherous journey across the snowy Himalayas toward freedom Kunsang thought she would never leave Tibet. One of the country's youngest Buddhist nuns, she grew up in a remote mountain village where, as a teenager, she entered the local nunnery. Though simple, Kunsang's life gave her all she needed: a oneness with nature and a sense of the spiritual in all things. She married a monk, had two children, and lived in peace and prayer. But not for long. There was a saying in Tibet: "When the iron bird flies and horses run on wheels, the Tibetan people will be scattered like ants across the face of the earth." The Chinese invasion of Tibet in 1950 changed everything. When soldiers arrived at her mountain monastery, destroying everything in their path, Kunsang and her family fled across the Himalayas only to spend years in Indian refugee camps. She lost both her husband and her youngest child on that journey, but the future held an extraordinary turn of events that would forever change her life—the arrival in the refugee camps of a cultured young Swiss man long fascinated with Tibet. Martin Brauen will fall instantly in love with Kunsang's young daughter, Sonam, eventually winning her heart and hand, and taking mother and daughter with him to Switzerland, where Yangzom will be born. Many stories lie hidden until the right person arrives to tell them. In rescuing the story of her now 90-year-old inspirational grandmother and her mother, Yangzom Brauen has given us a book full of love, courage, and triumph, as well as allowing us a rare and vivid glimpse of life in rural Tibet before the arrival of the Chinese. Most importantly, though, ACROSS MANY MOUNTAINS is a testament to three strong, determined women who are linked by an unbreakable family bond.

Mountains of the Mind Jan 31 2020 The basis for the new documentary film, *Mountain: A Breath-taking Voyage into the Extreme*. Combining accounts of legendary mountain ascents with vivid descriptions of his own forays into wild, high landscapes, Robert McFarlane reveals how the mystery of the world's highest places has come to grip the Western imagination—and perennially draws legions of adventurers up the most perilous slopes. His story begins three centuries ago, when mountains were feared as the forbidding abodes of dragons and other mysterious beasts. In the mid-1700s the attentions of both science and poetry sparked a passion for mountains; Jean-Jacques Rousseau and Lord Byron extolled the sublime experiences to be had on high; and by 1924 the death on Mt Everest of an Englishman named George Mallory came to symbolize the heroic ideals of his day. Macfarlane also reflects on fear, risk, and the shattering beauty of ice and snow, the competition and contemplation of the climb, and the strange alternate reality of high altitude, magically enveloping us in the allure of mountains at every level.

Of Men and Mountains Dec 24 2021 William O. Douglas was one of that rare mix of man that helped define America, a judge of the supreme court and also a lifelong outdoorsman. This is his story in his words and conveys the joy he felt for the wild untouched vastness of the great forests and the high snow capped peaks which he pitched himself against. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Tr?n Di?u Lan, who was born in 1920, was forced to flee her family farm with her six children during the Land Reform as the Communist government rose in the North. Beyond the Mountain Jul 07 2020 What does it take to be one of the world's best high-altitude mountain climbers? A lot of fundraising; traveling in some of the world's most dangerous countries; enduring cold bivouacs, searing lungs, and a cloudy mind when you can least afford one. It means learning the hard lessons the mountains teach. Steve House built his reputation on ascents throughout the Alps, Canada, Alaska, the Karakoram and the Himalaya that have expanded possibilities of style, speed, and difficulty. In 2005 Steve and alpinist Vince Anderson pioneered a direct new route on the Rupal Face of 26,600-foot Nanga Parbat, which had never before been climbed in alpine style. It was the third ascent of the face and the achievement earned Steve and Vince the first Piolet d'Or (Golden Ice Axe) awarded to North Americans. Steve is an accomplished and spellbinding storyteller in the tradition of Maurice Herzog and Lionel Terray. *Beyond the Mountain* is a gripping read destined to be a mountain classic. And it

The Mountains Next Door Mar 15 2021 The Rincon Mountains east of Tucson are a small and seemingly undistinguished range; rounded and arid, they are more a site for foothill walks than serious exploring. Yet, upon close inspection, these unassuming mountains disclose many wonders and curiosities, as Janice Emily Bowers discovered while conducting a botanical study there. Over the course of two years, she made thirty-eight excursions into the Rincons—some for two or three days at a time—and garnered not only plant specimens but thoughts along the way. *The Mountains Next Door* is the first book to describe and celebrate the natural history of these mountains that even longtime Arizonans may often take for granted. "I watched the seasons march through the canyons," writes Bowers, "followed the wildflower parade from February through November, and throughout it all realized that I could travel in the Rincon Mountains forever and never learn all they contained." It is also a book of meditations, as Bowers reflects upon the meaning of nature, the similarities between the scientific and creative processes, the value of wilderness in the face of urban encroachment, and other ideas. Participating in the long tradition of reflective natural history writing, she has produced a memorable book that depicts the delights and dilemmas of field botany as it explores the perennial struggle between science and mysticism that tugs at every naturalist's heart.

Colors of the Mountain Mar 27 2022 "I was born in southern China in 1962, in the tiny town of Yellow Stone. They called it the Year of Great Starvation." In 1962, as millions of Chinese citizens were gripped by Mao Zedong's Cultural Revolution and the Red Guards enforced a brutal regime of communism, a boy was born to a poor family in southern China. This family—the Chens—had once been respected landlords in the village of Yellow Stone, but now they were among the least fortunate families in the country, despised for their "capitalist" past. Grandpa Chen couldn't leave the house for fear of being beaten to death; the children were spit upon in the street; and their father was regularly hauled off to labor camps, leaving the family of eight without a breadwinner. Da Chen, the youngest child, seemed destined for a life of poverty, shame, and hunger. But winning humor and an indomitable spirit can be found in the most unexpected places. *Colors of the Mountain* is a story of triumph, a memoir of a boyhood full of spunk, mischief, and love. The young Da Chen is part Horatio Alger, part Holden Caulfield; he befriends a gang of young hoodlums as well as the elegant, elderly Chinese Baptist woman who teaches him English and opens the door to a new life. Chen's remarkable story is full of unforgettable scenes of rural Chinese life: feasting on oysters and fried peanuts on New Year's Day, studying alongside classmates who wear red armbands and quote Mao, and playing and working in the peaceful rice fields near his village. Da Chen's story is both captivating and endearing, filled with the universal human quality that distinguishes the very best memoirs. It forces once again that the concerns of childhood transcend time and place.

Mountain Geography Sep 08 2020 Mountains cover a quarter of the Earth's land surface and a quarter of the global population lives in or adjacent to these areas. The global importance of mountains is recognized particularly because they provide critical resources, such as water, food and wood; contain high levels of biological and cultural diversity; and are often places for tourism and recreation and/or of sacred significance. This major revision of Larry Price's book *Mountains and Man* (1981) is both timely and highly appropriate. The past three decades have been a period of remarkable progress in our understanding of mountains from an academic point of view. Of even greater importance is that society at large now realizes that mountains and the people who reside in them are not isolated from the mainstream of world affairs, but are vital if we are to achieve an environmentally sustainable future. *Mountain Geography* is a comprehensive resource that gives readers an in-depth understanding of the geographical processes occurring in the world's mountains and the overall impact of these regions on culture and society as a whole. The volume begins with an introduction to how mountains are defined, followed by a comprehensive treatment of their physical geography: origins, climatology, snow and ice, landforms and geomorphic processes, soils, vegetation, and wildlife. The concluding chapters provide an introduction to the human geography of mountains: attitudes toward mountains, people living in mountain regions and their livelihoods and interactions within dynamic environments, the diverse types of mountain agriculture, and the challenges of sustainable mountain development.

In the Shadow of the Mountain Oct 10 2020 "In climbing the Seven Summits, Silvia Vasquez-Lavado did nothing less than take back her own life—one brave step at a time. She will inspire untold numbers of souls with this story, for her victory is a win on behalf of all of us." —Elizabeth Gilbert *Endless* ice. Thin air. The threat of dropping into nothingness thousands of feet below. This is the climb Silvia Vasquez-Lavado braves in her page-turning, pulse-raising memoir following her journey to Mount Everest. A Latina hero in the elite macho tech world of Silicon Valley, privately, she was hanging by a thread. Deep in the throes of alcoholism, hiding her sexuality from her family, and repressing the abuse she'd suffered as a child, she started climbing. Something about the brute force required for the ascent—the risk and spirit and sheer size of the mountains and death's close proximity—woke her up. She then took her biggest pain as a survivor to the biggest mountain: Everest. "The Mother of the World," as it's known in Nepal, allows few to reach her summit, but Silvia didn't go alone. She gathered a group of young female survivors and led them to base camp alongside her. It was never easy. At times hair-raising, nerve-racking, and always challenging, Silvia remembers the acute anxiety of leading a group of novice climbers to Everest's base, all the while coping with her own nerves of summiting. But, there were also moments of peace, joy, and healing with the strength of her fellow survivors and community propelling her forward. In *The Shadow of the Mountain* is a remarkable story of heroism, one which awakens in all of us a lust for adventure, an appetite for risk, and faith in our own resilience.

East of the Mountains Sep 20 2021 When Dr Ben Givens left his Seattle home he never intended to return. Games in Economic Development Nov 22 2021 *Games in Economic Development* examines the roots of poverty and prosperity through the lens of elementary game theory, illustrating how patterns of human interaction can lead to vicious cycles of poverty as well as virtuous cycles of prosperity. This book shows how both social norms and carefully designed institutions can help shape the "rules of the game", making better outcomes in a game possible for everyone involved. The book is entertaining to read, it can be accessed with little background in development economics or game theory. Its chapters explore games in natural resource use; education; coping with risk; borrowing and lending; technology adoption; governance and corruption; civil conflict; international trade; and the importance of networks, religion, and identity, illustrating concepts with numerous anecdotes from recent world events. Comes complete with an appendix, explaining the basic ideas in game theory used in the book.

Where the Mountain Meets the Moon Feb 23 2022 This stunning fantasy inspired by Chinese folklore is a companion novel to *Starry River of the Sky* and the New York Times bestselling and National Book Award finalist *When the Sea Turned to Silver* in the valley of Fruitless mountain, a young girl named Minli lives in a ramshackle hut with her parents. In the evenings, her father regales her with old folktales of the Jade Dragon and the Old Man on the Moon, who knows the answers to all of life's questions. Inspired by these stories, Minli sets off on an extraordinary journey to find the Old Man on the Moon to ask him how she can change her family's fortune. She encounters an assorted cast of characters and magical creatures along the way, including a dragon who accompanies her on her quest for the ultimate answer. Grace Lin, author of the beloved *Year of the Dog* and *Year of the Rat* returns with a wondrous story of adventure, faith, and friendship. A fantasy crossed with Chinese folklore, *Where the Mountain Meets the Moon* is a timeless story reminiscent of *The Wizard of Oz* and *Kelly Barnhill's The Girl Who Drank the Moon*. Her beautiful illustrations, printed in full-color, accompany the text throughout. Once again, she has created a charming, engaging book for young readers.
