Medieval Latin Christian Texts on the Jewish Calendar Feb 21 2022 *Medieval Latin Christian Texts on the Jewish Calendar* opens up a previously unknown chapter in the history of Jewish-Christian intellectual exchange during the Middle Ages by presenting critical editions, English translations, and in-depth studies of five Medieval Latin Christian Texts on the Jewish Calendar.

Wingfield College and Its Patrons Jan 11 2021 The 650th anniversary of the foundation of Wingfield College was the occasion for a special two-day symposium marking the culmination of a three-year UEA-funded research project into the college and castle. The building projects of the late medieval aristocracy focused on their homes and the monasteries, churches or chantry foundations under their patronage where their family were buried and commemorated. This commemoration allowed a visual celebration of their achievements, status and lineage, the scale and prestige of which reflected on the fortunes of the family as a whole. Wingfield is explored in the context of both the actual building of the castle, chantry chapel and the college, and that of the symbolic function of these as a demonstration ion of aristocratic status. The contributions to this book examine many topics which have hitherto been neglected, such as the archaeology of the castle, which had never been excavated, the complex history of the college's architecture, and the detailed study of the monuments in the church. The latest techniques are used to reconstruct the college and castle, with a DVD to demonstrate these. And the context of the family and its fortunes are explored in chapters on the place of the de la Poles in fifteenth century history, as soldiers, administrators and potential claimants to the throne.

Elizabeth Widville, Lady Grey Oct 27 2019 Wife to Edward IV and mother to the Princes in the Tower and later Queen

Elizabeth of York, Elizabeth Widville was a central figure during the War of the Roses. Much of her life is shrouded in speculation and myth – even her name, commonly spelled as ‘Woodville’, is a hotly contested issue. Born in the turbulent fifteenth century, she was famed for her beauty and controversial second marriage to Edward IV, who she married just three years after he had displaced the Lancastrian Henry VI and claimed the English throne. As Queen Consort, Elizabeth’s rise from commoner to royalty continues to capture modern imagination. Undoubtedly, it enriched the position of her family. Her elevated position and influence invoked hostility from Richard Neville, the ‘Kingmaker’, which later led to open discord and rebellion. Throughout her life and even after the death of her husband, Elizabeth remained politically influential: briefly proclaiming her son King Edward V of England before he was deposed by her brother-in-law, the infamous Richard III, she would later play an important role in securing the succession of Henry Tudor in 1485 and his marriage to her daughter Elizabeth of York, thus ending the War of the Roses. Elizabeth Widville was an endlessly enigmatic historical figure, who has been obscured by dramatizations and misconceptions. In this fascinating and insightful biography, Dr John Ashdown-Hill brings shines a light on the truth of her life.

Calendar of the Patent Rolls Preserved in the Public Record Office, Issues 1429-1436 Mar 01 2020 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The History of Bethlem Jul 25 2019 Bethlem Hospital, popularly known as "Bedlam", is a unique institution. Now seven hundred and fifty years old, it has been continuously involved in the care of the mentally ill in London since at least the 1400s. As such it has a strong claim to be the oldest foundation in Europe with an unbroken history of sheltering and treating the mentally disturbed. During this time, Bethlem has transcended locality to become not only a national and international institution, but in many ways, a cultural and literary myth. The History of Bethlem is a scholarly history of this key establishment by distinguished authors, including Asa Briggs and Roy Porter. Based upon extensive research of the hospital's archives, the book looks at Bethlem's role within the caring institutions of London and Britain, and provides a long overdue re-evaluation of its place in the history of psychiatry.

Norman Institutions Jun 23 2019 First published in 1918, Norman Institutions, a group of thematically linked essays on political and legal institutions, contains still-standard analyses of aspects of judicial administration, trial by jury and feudal custom in Norman lands. Haskins [1870-1937], the first important American medievalist, was a remarkably influential scholar. He taught at Harvard for many years, and he dominated the study of his field in the United States. Many of his interpretations, novel in their day, are incorporated into our understanding of the medieval world. Among his best-known books are *The Rise of Universities* (1923) and *The Renaissance of the Twelfth Century* (1927).
